

Dear Montgomery County Council members,

I'm writing to you today strongly in favor of the proposed vaccination requirement to enter local businesses. Please let us have nice things like D.C. and Philadelphia. I would like to be able to go out again and support the local businesses I love. I would like to be able to go to a movie at any theater (but thanks to the AFI Silver for implementing a vaccine requirement months ago). Bars already have to card people; checking a vaccine card isn't that difficult. Also, in the future, I hope you will update this legislation to require boosters as well.

Adam Kapp
