I am writing to express my opposition to a vaccine requirement to enter businesses in the county. In the past week I have been in 3 restaurants in the county; they were all almost empty. A vaccine mandate will further hurt these businesses because people will go to neighboring counties to eat and shop. I am also concerned because this will force my grandson, who has already had Covid 19, to get a vaccine he does not need. I am vaccinated but the people I know who are not will not be swayed by this. Please vote against this mandate.
