## To whom it may concern:

Hello, and thank you for giving us this platform to be able to communicate with you about our opinions. This vaccine passport mandate concerns me, because first of all it is unconstitutional, & secondly it will really hurt small businesses, and people need to work in order to eat.. viruses hurt people, but so does homelessness, and hunger. That's what can happen if people can't work. I really believe in my heart that vaccine passports should not be mandated by any means. I trust that you understand just how badly this virus has hurt our country. You as our public elected officials continue to be able to get paychecks and continue to be able to get them because of hard-working taxpaying citizens. So to a degree you cannot understand the struggles that people have when they can't work, when they can't provide for their families, or when they can't pay for their cars and their homes.. I hope that you can come to an agreement about how to keep the vulnerable safe, without hurting people that need to work. May God grant you the wisdom to make right choices.
