To those who wish to harm:

I listened to the public hearings on your Bill for "vaccine passports" held on January 18th. I have spoken to neighbors, friends, co-workers and heard the overwhelming consensus that the implementation of this draconian measure will have disastrous consequences.

These medical passports have NOTHING to do with our health or caring about our safety. This is a maneuver for power over the people. Government will be the enemy of Life, Liberty and The Pursuit of Happiness. Small business is being ruined, jobs are being destroyed, families are suffering, and our children are learning to be afraid and compliant. Mandates are causing the most rapid loss of individual liberties in modern history. You have ALL lost credibility and trust from WE THE PEOPLE.

You want to prove you care about us and our safety. Get criminals off and KEEP them off our streets. Prosecute and stop harboring criminal behaviors. This is NOT a sanctuary for people who break the laws, even the ones who break them coming into our country illegally. We have rights and freedoms that you are to protect. Crime is going up. You know what is going down?? Covid deaths and hospital ICU cases. We are sick and tired of your lies and manipulations. Maryland residents who have been funding your salaries are not going to obey. We are your client, you work for us and if you continue to ignore us, we will fire you. WE WILL NOT COMPLY WITH TYRANNY.

Do the right thing and keep your dignity.

Sincerely,

Jodi Alexander
