

**Re: Second Amended Board of Health Regulation to prevent the spread of COVID19, and indoor mask guidance in Montgomery County**

I **oppose** the proposed resolution.

The people of Montgomery County are smart and can make informed personal decisions on how to manage their personal health outcomes. If they want to wear a mask, they can. If they find themselves in a situation that they feel does not warrant one, they should be afforded the ability to make that decision for themselves.

It's time to move on from bureaucratic micromanagement at the population level.

It's okay to give up on policies that don't work.

**Please proceed with the current January 31 termination date.**
