

Special Appropriation - DHHS - \$450,000 for Pediatric Mobile Medical Vehicle; and Amendment to Designation of Entities for Non-Competitive Contract Award Status: Casa Ruben, Inc.

To Whom It May Concern:

I am writing this letter in support of the Pediatric Mobile Medical Vehicle. The pandemic has set us back in caring for our most vulnerable community members which makes this special appropriation more important than ever before. The pandemic has also widened the health gap between our most affluent and our most underserved citizens. I believe that these proactive preventative actions to address health care concerns early in childhood will cost the county much less than if patients are not treated early and have chronic conditions later in life.

Warmly,  
Linda Youngentob
