Participating in the discussion were Dr. Bridgers, Acting Chief Health Officer, and Mr. O’Donnell, Program Administrator, Public Health Emergency Preparedness and Response, Department of Health and Human Services (DHHS); Dr. Stoddard, Assistant Chief Administrative Officer; and Mr. D’Andrea, Chief of Staff, Office of the Superintendent, Ms. Dublinske, Coordinator, Student Welfare and Compliance, and Ms. Iszard, Coordinator, Student Health and Wellness, Montgomery County Public Schools (MCPS).

Received updates from DHHS including current data for the number of COVID-19 cases and case number trends, hospitalization rates, death rates, case rates by zip code trends, hospitalization and death rates by vaccination status, variant case trends, World Health Organization data trends as it relates to County trends, vaccination rates in population segments, weekly vaccination activity, vaccination rates by race, cases by age and race/ethnicity, pediatric vaccination trends, and medication availability for COVID-19 treatment.

Dr. Stoddard discussed the data trends for the variants and sub-variants, timeline for under-five years old vaccine availability, and Novavax vaccine success thus far.

Mr. O’Donnell shared that DHHS is working with community partners to find opportunities for DHHS to participate in community programs to provide testing opportunities and has amassed a stockpile of testing kits. DHHS is monitoring the federal government’s funding of private testing and vaccinations to determine if DHHS will have to assist in providing more services should the federal government reduce funding. Also discussed were different types of testing available, expected results timing, and updates to DHHS’s communication plan for on-site testing options.
In response to constituent feedback, Mr. Katz requested that the County’s website to make a vaccine appointment should be made easier to navigate, and that clinic operating hours posted online operating hours be verified for accuracy.

Dr. Bridgers noted that DHHS is making efforts to increase the County’s supply of anti-viral drugs to make them available to residents as the majority of the supply is being provided directly to private providers, rather than community partners. Mr. O’Donnell shared the positive benefits of using a Test to Treat site to obtain anti-viral drugs more easily.

Dr. Bridgers and Dr. Stoddard provided an update on the progress of hiring a new County Health Officer. An offer has been made to a candidate and DHHS is awaiting a response from the candidate and approval from the State Board of Health. Dr. Bridgers also provided an update on DHHS’s efforts to recruit school nurses, reexamining the nurse to student ratio, and continuing open dialogues with school nurses.

Received an update from MCPS on COVID-19 data trends, at-home rapid test distribution and communications, spring break COVID-19 data case trends and improvement from the winter break data, contact tracing changes, vaccination opportunities and upcoming clinics, and a summary of qualifications of Dr. Kapunan, newly hired MCPS School System Medical Officer.

Mr. D’Andrea, Dr. Stoddard, and Dr. Bridgers discussed MCPS testing and case positivity, and contact tracing changes. Mr. O’Donnell stated that MCPS does not track cases by school and Dr. Bridgers noted that a shared system to track vaccination rates by schools will be available in the fall. Dr. Stoddard stated that DHHS will continue to operate to provide uninsured individuals with testing and vaccines.

Dr. Bridgers anticipates a decline in the number of positive COVID cases in the next two weeks based on data trends.

(8) BRIEFING - Montgomery County Police Department/Montgomery County Public Schools Memorandum of Understanding

Participating in the discussion were Dr. McKnight, Interim Superintendent, and Ms. Reuben, Chief of Teaching, Learning, and Schools, MCPS; Chief Jones and Assistant Chief Facciolo, Community Resources Bureau, Montgomery County Police Department (MCPD).
Dr. McKnight summarized the efforts and communications MCPS has undertaken to address the social/emotional needs of students and revised responsibilities of the Community Engagement Officers (CEOs) in the new CEO 2.0 program and Memorandum of Understanding (MOU) between MCPS and MCPD. Chief Jones summarized the history of the MOU between the agencies for School Resource Officers (SROs), and the program evaluation process built into the agreement.

Chief Jones noted that in recent years, the largest issue facing schools is the abundance of illegal drugs and as such agreed that police would not charge students and that this would be handled as a MCPS disciplinary issue. However, due to the incident at Magruder High School in February 2022, the SRO program has been revamped to the CEO 2.0 program to ensure partnership between MCPS and MCPD.

Ms. Reuben provided a summary of the continuous discussions with stakeholders to design the Safety, Security, and CEO enhancements for the CEO 2.0 program. Assistant Chief Facciolo provided an overview of the responsibilities of each participant in the MOU and noted that the MOU clearly defines the roles of the CEOs.

Mr. D’Andrea shared the Reimagining School Safety and Student Wellbeing (RSSSW) workgroup process and communication processes that were established for the new CEO program. Ms. Reuben also shared that open meetings were held for public input, school meetings, student forums, and other methods for opportunities for community input and information sharing in developing this new program.

Dr. McKnight noted that this MOU has guidelines for accountability to review data and change the course of action in real time if needed.

Mr. Albornoz stated that the program will be discussed again at a future Council session.

Supported without objection, Mr. Rice’s motion to require that employees who select the High Option Prescription Plan, rather than the Standard Prescription Plan, must pay the difference between 80 percent of the Standard Plan and the High Option Plan; and the addition of $150,000 to the FY23 Operating Budget to cover the premiums for employees who were omitted from OMB’s premium coverage calculation.

Supported without objection, Mr. Rice’s motion to ensure that cost-sharing language for basic and dependent life insurance is specified at an 80/20 split instead of 75/25; and the addition of $230,000 to the FY23 Operating Budget to cover this as it was not included in OMB’s premium coverage calculation.
