

Dear Council Members,

I would like to request that the Council include a commercial sewer policy for the Travilah crossroads area as an amendment to the *2022-2031 Comprehensive Water Supply and Sewerage Systems Plan*.

I own a childcare center at Potomac Oak Center, and this amendment will help us increase our capacity which is currently limited by water supply and sewer system in place. We have the capability to double our staff to 14 employees, and provide more services to families in the community with their childcare needs.

I strongly support a new commercial sewer policy specifically applicable to the crossroads area of Travilah.

Yours Truly,

*Shahin Lotfabadi*

*Fun Square Early learning Center*
