TO:

Montgomery County Council Members

From:

Christine Perry

I am addressing the County's proposed plan to spend \$1 million dollars to promote Abortion Access. I believe that Abortion is the taking of an innocent human life and should not be promoted by this jurisdiction.

Instead, I am asking that the funds be used to alleviate the conditions that force women to kill their own child. There are Pregnancy Centers and Non-Profit Programs that could use these funds to better benefit a woman. Shady Grove Pregnancy Center and the Gabriel Project are just two to name a few, that will assist a woman during pregnancy and provide assistance after delivery. Maybe it would benefit the Council to investigate these alternatives.
