

My name is Anne Davies. I live on a 90-acre farm in the Ag Reserve. I have been here since 1980. I am writing to comment on proposed ZTA 24-02, regarding overnight stays in the Ag Reserve.

I want to thank Council Members Balcombe and Luedtke for working with stakeholders to produce this version of the ZTA. However, I urge the Council to consider a few further changes.

- Please do not include RV's in this ZTA. Their generators are noisy and polluting. RV's simply do not fit in with the ambiance of agriculture.
- Please do not include the vague "removable structures" in this ZTA. This opens the door to tiny houses, completely at odds with the 25 acres per house in the Ag Reserve.
- Please require any tents or other sleeping arrangements to be arrayed close to and around the home or existing buildings rather than close to and visible from the property line and roadway. People come to the Ag Reserve to see farms, farm animals, crops, woods, streams, and wild life, not tents and other sleeping accommodations.

Thank you for your consideration.

N. Anne Davies
