

Daniel Marcin

Hello. I understand that Bill 2-25, ZTA 25-02 and/or ZTA 25-03 are before the council. These bills are known as “More Housing NOW” and they are on the topic of housing and zoning in this county.

I strongly believe that there is too much local government interference in the housing market in this county. I would ask you to take any action available to you to reduce that government interference. These bills are one way to do that, but they are not enough on their own. You should vote for these bills and then continue to lessen your burden on housing construction.

Thank you and have a delightful day.

Daniel Marcin
