

April 3, 2025.

Attention Office of the County Council.

Good afternoon, this is a letter to thank you for the funding for Liberty's Promise that helped complete my community service hours. I am grateful that with this funding we have been able to do different activities like going out on trips, for example: Washington D.C. or to go clean-up a park where I learned about certain types of plants that I was not knowledgeable about. Also thank you because with that funding I can eat the food that is given to us students. Thank you, County Council, for all the investments. I hope that you continue to do this for many more students so that they can complete their community service hours doing fun activities and eating delicious foods. Thank you, County Council, for everything I just mentioned.
