

Happy Monday, and thank you for all that you do for all of us in this great county. We (alllll of us) value you, your commitment, your dedication, your love, and your time. Not easy what you do - making decisions for the entirety of this county.

Today, may we share how valuable the 55+ programs are and have been for many of us. Without this program, we wither away at home alone, no desire to exercise, eat, commune, educate, socialize. Since we have started in the program, a new chapter has opened in our lives. We have friends, we volunteer, we attend a variety of exercise and education classes, we blossom.

Presently, my mother (90), myself (68), and my sister (61) attend mainly Wheaton, and at times other locations. The benefit to so many each and every day is encouraging in the humanity you show by supporting this program. The staff at all the locations are stellar. Not a paycheck, rather a commitment to encourage and embrace the value of each 55+ member. Each day we are met with a smile and recognition. It reminds us that we are valuable. You are valuable to us as well.

How may we support you? How may we assist you in seeking the funding needed for this county's services? The news each day spins our heads, however, we are Montgomery County Maryland. We are strong, and we will continue to march forward regardless of the storms around us.

Thank you!
