

To whom it may concern,

My children, now ages 7 and 10, have attended the after school program at Long Branch Community Center for over 2 years. The program has been wonderful not only due to it's affordability but the location, the staff, the activities prepared for the children and the local supportive nature of the institution. I have no negative experiences to share, only positive. Please ensure that the program stays active for future parents of young children. The program is an asset to the community and the country at large, helping to raise, educate and care for our future citizenry.

Thank you,
Mira Sandrine Silverman
