

Dear Council President Stewart and Councilmembers:

My name is Namuun Tugsjargal, and I am a resident of District 1 in Montgomery County. As a high school student, first-generation American, and youth advocate actively involved in local food insecurity and educational equity initiatives, I care deeply about how our county shows up for its most vulnerable residents. With a 71% increase in homelessness in Montgomery County from 2020-2024, the council must fund the demands that our community has decided are most important, especially the ones that provide prevention and exit from homelessness.

I ask that the council support the following in the FY2026 Budget:

Rapid Rehousing provides short-term rental assistance to individuals experiencing homelessness, as well as light case management. This is one of SEPH's primary ways it exits people out of the homelessness system. We must fund \$9,475,427 to cover the costs of sheltering and housing for an estimated 642 current clients and 200 new clients in 2026, so that everyone has a fair shot at stability.

For our neighbors with chronic health conditions and disabilities, housing is healthcare. Yet, too many are left without the long-term support they need. I urge the council to fund Permanent Supportive Housing with \$13,735,903 to support both current clients and new individuals facing the toughest conditions to exit homelessness.

No one should be left without a home because they can't afford skyrocketing rents. The council must fund the Emergency Rental Assistance Program with \$50 million to ensure all 4,723 households that asked for rental assistance receive an average grant of \$10,581.

In order to prevent homelessness and housing insecurity, we must address the housing shortage. I ask that the Council fully fund affordable housing development with \$121.3 million to continue closing the gap.

If the government cannot adequately address housing struggles, at the very least they can support individuals as they transition to new housing. I support \$2.4 million in Storage and Moving Assistance to provide families who were evicted by the Sheriff's Office at least six months of storage to be able to recover and restart.

No one should be forced to risk injury just to enter their own home. Many apartment complexes in Montgomery County remain inaccessible, leaving disabled residents to navigate unsafe conditions daily. We need \$150,000 for the Montgomery County government to fund retrofitting apartments through nonprofits like Rebuilding Together, ensuring that all residents can live with dignity and safety.

More and more residents across the county are accessing food assistance providers while they struggle to make ends meet. I urge the Council to fund a 10% increase to food assistance grants to help providers address rising food costs and increasing needs.

I believe in a county where both housing and food is safe, healthy, affordable, and available to everyone. I'd like to thank the Council for your time, consideration, and your leadership.

Respectfully,
Namuun Tugsjargal
