

April 8, 2025

Councilmembers,

I write to express my strong support of the Amendment to the FY25-30 CIP and Supplemental Appropriation #25-60 to the FY25 Capital Budget concerning the Montgomery County Public Schools (MCPS) Bus Depot and Maintenance Relocation Project (No. P360903).

As an engaged voter and active member of the Derwood community, I want to thank County Executive Elrich for continuing to pursue the long-promised relocation of the school buses currently housed at the Shady Grove MCPS Bus Depot on Crabbs Branch Way and for submitting the CIP amendment now before the Council. Councilmembers, I urge you to approve this project so the County can finally move forward in fulfilling its commitment to the residents of Derwood, and especially to the Shady Grove Westside community.

Nineteen years ago, in 2006, Montgomery County approved the Shady Grove Sector Plan. This Plan created a vision for the area surrounding the Shady Grove Metro Station of a walkable and mixed-use community with civic spaces, parks, community-serving retail and a school. Central to this plan was and still is the relocation of the MCPS Bus Depot on Crabbs Branch Way in order to allow for the transformation of this area. The County reiterated and strengthened this commitment in the 2020 Shady Grove Minor Master Plan Amendment. In the almost 20 years since the original plan, both longtime Derwood residents, as well as the new residents who moved to the still under development Shady Grove Westside community expecting these promised improvements, have watched in frustration, and frequently also anger, as the school bus depot on Crabbs Branch Way has remained despite persistent advocacy and numerous relocation proposals; including some sites that remain large empty parking lots to this day, and no less as development inequity has become an unacceptable hallmark of Montgomery County.

Thanks to the committed advocacy of community members, including the more than 860 voters who have signed the [Central MoCo Deserves Better-Now! MoveOn petition](#), as well as the continued engagement of the County's Department of General Services, under the leadership of its Director David Dise, the County Council has before it an opportunity to finally begin fulfilling this promise. This proposal would relocate the MCPS maintenance facility and 250 of the school buses to a much more appropriate location in a commercial and light industrial area along Gude Drive rather than the heavily residential and Metro Station-adjacent community where it currently exists.

This relocation will work in combination with the County's ongoing Jeremiah Park project to finally allow this property to fulfill its long-intended vision: A more vibrant and healthy community with the parks and open space amenities that this area of the County has long been denied. Further, this project will benefit the entire County by finally allowing the creation of new housing, new businesses, new parks, and new civic spaces and also, by reducing the size and scope of the ongoing Jeremiah Park project, saving the County hundreds of millions of dollars in needed future investments.

Thank you for your consideration and support of this vitally important project.

Jeff Reznick
