

University Boulevard Corridor Meeting Comments

My name is Jacob Barker. I'm writing to support more and denser housing options (including but not limited to duplexes, triplexes, 4-plexes, 6-plexes, townhouses, and 5 story single stair apartments by right) anywhere within a 10 minute walk shed of existing WMATA and RideOn bus stops and anywhere within a 15 minute walk shed of planned BRT stations. Also writing to support the current bus only lanes and hope that they can be expanded to more of our county's arterials. Further, please make a comprehensive plan to build out bike facilities, including protected bike routes on both side of University. This could include lanes on the actual corridor or building out a neighborhood greenway on both sides of the boulevard.
