

Bill 28-25

My name is Jacob Barker, I live in Takoma Park, and I support Bill 28-25, which will make it safer to use a bicycle or e-mobility devices as a means of transportation. It is an almost daily occurrence that a motorist has obstructed a bike lane, whether protected, painted, and otherwise. Sometimes it's a construction vehicle. Other times it's someone parking where there is not item to obstruct them from doing so. It's vital that we prohibit using bike lanes for parking automobiles. I urge you to vote for it.
