

8 Million dollars for Josiah Henson Visitor Center and Parking Lot?

In today's dollars it cost 13 million to build the St Louis Gateway Arch, but somehow we need 8 million for a 2900 sq foot visitor center and a parking lot?

95 million for bike lane improvement

Have you been down Old Georgetown road lately? Or downtown Rockville? I haven't seen a single bicyclist use it, even in good weather. and certainly no one using it in the last few weeks, but you want 95 million more?

28 million for a food scrap facility

We need 28 million dollars to get rid of food? You cant even handle our current trash disposal problem and you want 28 million to get rid of food?.

75 million for pedestrian traffic safety program You've already committed 430 million and traffic deaths have only increased, what is this 75 million going to fix that you weren't able to do before?

25 million for ABS services

Why are we even still in the alcohol business?

and my personal favorite - 250 thousand for a 10 ft. pedestrian bridge.

supplies at Home depot cost about 1500 dollars, and 3 day laborers could build it in 2 days for another 1500 dollars.

Just these costs alone total 231 million dollars. You could hire over 1300 classroom teachers, build a 2 brand new schools, feed and house 5000 families for a year, hire more that 1800 more police officers with just this amount alone.

And this is the tip of the iceberg.

You talk about affordability in your executive launch announcements Andrew, you gripe about affordable housing in front of the cameras Will and Mink, you pontificate about who can afford to live in MoCo on your Linked In page Marilyn. These are not affordable or even useful projects. My property Tax bill has increase 50% in the last 10 years. Get that? 50%

You raise our raise our taxes year after year and waste in on bloated and useless spending projects that benefit no one and you have the nerve to play Oliver Twist and come to use begging "please sir I want some more"?

You must think we are stupid

We are done with your nonsense and we are done with you.

Vote for this budget and get voted out. End of story.
