What's the rush? I don't understand why the companies that will profit from the data centers don't pay for it. Why would tax payers pay for it and subsequent costs? If data centers are right for Montgomery County now, they will be right for the county in 6-12 months when a transparent public process has made a full accounting of where and how data centers can be sited to complement the county's goals - and the biggest question - who pays? Good leadership proceeds carefully and in collaboration!
