

Testimony on ZTA 26-01 Data Center Commercial Uses - Data Center

February 26, 2026

Edith Allison
Rockville, MD

Please delay approval of data centers for Montgomery County at least 6-12 months when a transparent public process has made a full accounting of where and how data centers can be sited to complement the county's goals - and the biggest question - who pays? The idea of allowing these facilities to move in and then tax them heavily is backward thinking and won't cover the health and energy costs borne by regular residents. You may include my comments in the meeting record.

Thank You,

Edith Allison
