As a resident of Montgomery County for over 30 years, I am writing to implore you:

Please don't rush into approving data centers!

Slow down to properly study the impacts on the local environment, including the overuse of natural resources such as water.

Slow down to examine the effects of robbing the area of open natural spaces, ecosystems, and habitats for wild birds and other species.

Slow down to examine potential impacts on affordability issues for local residents.

Slow down to utilize impact studies to develop legislation for appropriate regulation of this resource-greedy industry sector.

Slow down - get this right. Please.

Thank You,
