

John Stinson  
Poolesville, MD

The Potomac River in Dickerson is often very shallow. I waded it fly fishing in the summer. Drawing water from the River there to cool data centers could be catastrophic for local fish and wildlife.

Montgomery County needs to make sure we have regulations in place before allowing 5 hyperscale data centers to draw water from the Potomac. Please enact a moratorium as soon as possible and set about a transparent process to understand and regulate data centers here.
