

Testimony on ZTA 26-01 Data Center Commercial Uses - Data Center

March 3, 2026

Lynda DeWitt
Bethesda, Maryland

We do not want these dirty, energy- and water-hogging buildings in my county, especially near our beautiful Agricultural Reserve.

Why are we putting up these ugly warehouses for tech companies to create job-killing AI? Tax money? Sell our land, water, air, and human work for taxes?

Don't allow these data centers, especially with the lack of transparency and "proprietary information" involved.

Please include our comments in the hearing record.

Lynda DeWitt & Edward Kelly

Bethesda, MD

Thank You,

Lynda DeWitt
