

Testimony on ZTA 26-01 Data Center Commercial Uses - Data Center

February 26, 2026

Suzanne Matteson

Dear Representatives;

Thank you all for working to care for the needs of the people in Montgomery County! During our daily lives, It's so hard to remember our core mission for all on earth; to preserve and peacefully live in nature!

Please continue to carefully evaluate and review the 5 facility data center proposal for Dickerson! We already have to watch our resources for

times of drought or extreme heat or cold when residents are asked to reduce water or power use - that means we already do not have enough resources left to abuse. A moratorium on the Dickerson Data project needs to be in place - and quickly. We can't go back and add regulations to the project in Dickerson speeding toward approval.

I encourage all of you to sit or walk in nature everyday, and to value our natural resources please, it's our responsibility to protect the earth, just like you work toward nurturing and protecting your children.

Very Best to you and your families,

Suzanne Matteson

Thank You,
Suzanne Matteson
