

Testimony on ZTA 26-01 Data Center Commercial Uses - Data Center

February 26, 2026

Why are we running full speed ahead when no one has done a cost-benefit analysis on the impact of hosting data centers?

All residents are left with are the stories from other cities where data centers have caused havoc with water, noise and more. The cluster of data centers in Dickerson got pre-approval without a site plan. Without hard numbers on both sides of the ledger, how do we know if data centers are good for the county? Take a moratorium to get some answers and build strong policies that make data centers work for all of us.

Thank You,
