

Hi. My name is Lindsey. I'm raising my toddler as a part of this thriving and diverse community. My heart constantly breaks seeing so many children, from young toddlers to teenagers, being irreparably traumatized in our community. Our immigrant neighbors deserve better. Our children deserve better. Our immigrant community is what makes Montgomery County so special and unique. They are what makes our community so strong and resilient. It is your duty to do whatever you can to deter ICE from destroying lives so cruelly. Every action we can do to stop or at the very least slow down this regime is a worthwhile endeavor. I implore you to vote yes to the County Values Act and the Unmask ICE Act.
