212 \* \* \*

213 **22A-4. Applicability.**

214 Except as otherwise expressly provided in this Chapter, this Chapter applies  
215 to:

- 216 (a) a person required by law to obtain an approval or amendment to a  
217 development plan, diagrammatic plan, project plan, floating zone plan,

- 221 (a) *General.*

222 (1) *Coordinated with project review.* The forest stand delineation and  
223 forest conservation plan must be submitted and reviewed in  
224 conjunction with the review process for a development plan,  
225 floating zone plan, project plan, sketch plan, preliminary plan of

233 to the tract, to promote consistency between the objectives of this  
234 Chapter and other development requirements. To the extent

235 practicable, entities providing public utilities should design  
 236 facilities that will serve a tract in a manner that avoids identified  
 237 conservation areas and minimizes tree loss.

238 \* \* \*

239 (b) *Project requiring development plan, floating zone plan, project plan,*

241 (1) *Forest stand delineation.* The applicant must submit to the

 243 for a development plan, floating zone plan, project plan, sketch  
 244 plan, preliminary plan of subdivision, or site plan, whichever  
 245 comes first. Within 30 days of receipt, the Planning Director must  
 246 notify the applicant whether the forest stand delineation is  
 247 complete and correct. If the Planning Director fails to notify the  
 248 applicant within 30 days, the delineation will be treated as  
 249 complete and correct. The Planning Director may require further  
 250 information or provide for one extension of this deadline for an

 258 with the preliminary forest conservation plan, as amended by  
 259 the Board, must be made a condition of any approval of the first  
 260 applicable development application. Compliance with the final  
 261 forest conservation plan, as amended by the Board, must be

made a condition of any approval of the last development application. For a development plan or a floating zone plan, a Planning Board recommendation to the District Council on the preliminary forest conservation plan must be made under Section [59-D-1.4] 59-7.2.1. A final forest conservation plan must be approved by the Planning Board or Planning Director, as appropriate, before the Planning Board approves a record plat.

\* \* \*

**22A-12. Retention, afforestation, and reforestation requirements.**

\* \* \*

(e) *Standards for reforestation and afforestation.*

\* \* \*

(6) *Planned Unit Developments; Other Staged Development.*

Notwithstanding any other provision of this Section, the Planning Board may allow any afforestation or reforestation requirement for a planned unit development to be calculated and satisfied within the total area covered by the development plan, floating zone plan, sketch plan, or project plan instead of the net tract area. Similarly, the Planning Board may allow any afforestation or reforestation requirement applicable to a staged development subject to a single preliminary plan of subdivision but with separate site plan reviews for each stage to be calculated and satisfied using the total area covered by the preliminary plan of subdivision.

\* \* \*

**23A-3. Applicability of chapter.**

289 This [chapter] Chapter does not apply to a:

290

\* \* \*

291

(g) group of persons, not related by blood or marriage, living together in a dwelling unit as a [family] household as defined in Chapter 59.

292

293

Supportive care services and treatment for individual residents or the

294

group may be provided by a person or agency that does not assume

295

responsibility for acquiring those services or treatments or for

296

supervising, directing, or controlling the residents.

297

**25A-2. Declaration of public policy.**

298

The County Council hereby declares it to be the public policy of the County

299 to:

300

\* \* \*

301

(6) Ensure that private developers constructing moderately priced dwelling units under this Chapter incur no loss or penalty as a result thereof, and

302

have reasonable prospects of realizing a profit on such units by virtue of

303

the MPDU density bonus [provision] or public benefit provisions of

304

Chapter 59 and, in certain zones, the optional development standards;

305

and

306

307

\* \* \*

308

**25A-3. Definitions.**

309

The following words and phrases, as used in this Chapter, have the following

310 meanings:

311

\* \* \*

312

(r) Optional density bonus provision means any increase in density under Chapter 59, in a zoning classification that allows residential

313

development, above the amount permitted in the base or standard

314

method of development [density], whether by exercise of the optional provisions of Chapter 59 or by any special exception or conditional use.

\* \* \*

**25A-5. Requirement to build MPDUs; agreements**

(a) The requirements of this Chapter to provide MPDUs apply to any applicant who:

\* \* \*

(3) with respect to land in a zone not subject to subdivision approval or site plan review, applies for a building permit to construct a total of 20 or more dwelling units at one location.

In calculating whether a development contains a total of 20 or more dwelling units for the purposes of this Chapter, the development includes all land at one location in the County available for building development under common ownership or control by an applicant, including land owned or controlled by separate corporations in which any stockholder or family of the stockholder owns 10 percent or more of the stock. An applicant must not avoid this Chapter by submitting piecemeal applications or approval requests for subdivision plats, site or development plans, floating zone plans, or building permits. Any applicant may apply for a preliminary plan of subdivision, site or development plan, floating zone plan, record plat, or building permit for fewer than 20 dwelling units at any time; but the applicant must agree in writing that the applicant will comply with this Chapter when the total number of dwelling units at one location reaches 20 or more.

\* \* \*

(c) When the development at one location is in a zone where a density bonus is allowed; and

342  
343  
344  
345  
346  
347  
348

- (1) is covered by a plan of subdivision[,];
- (2) is covered by a plan of development, [or a] site plan, or floating zone plan; or
- (3) requires a building permit to be issued for construction, the required number of moderately priced dwelling units is a variable percentage that is not less than [12.5 percent] 12.5% of the total number of dwelling units at that location, not counting any workforce housing units built under Chapter 25B. The required number of MPDUs must vary according to the amount by which the approved development exceeds the normal or standard density for the zone in which it is located. Chapter 59 [permits] may permit bonus densities over the presumed base density where MPDUs are provided. If the use of the optional MPDU development standards does not result in an increase over the base density, the Director must conclude that the base density could not be achieved under conventional development standards, in which case the required number of MPDUs must not be less than [12.5 percent] 12.5% of the total number of units in the subdivision. The amount of density bonus achieved in the approved development determines the percentage of total units that must be MPDUs, as follows:

\* \* \*

**25A-10. Executive regulations; enforcement.**

\* \* \*

(b) This Chapter applies to all agents, successors and assigns of an applicant. A building permit must not be issued, and a preliminary plan of subdivision, development plan, floating zone plan, or site plan must

369 not be approved unless it meets the requirements of this Chapter. The  
 370 Director of Permitting Services may deny, suspend or revoke any  
 371 building or occupancy permit upon finding a violation of this Chapter.  
 372 Any prior approval of a preliminary plan of subdivision, development  
 373 plan, floating zone plan, or site plan may be suspended or revoked upon  
 374 the failure to meet any requirement of this Chapter. An occupancy  
 375 permit must not be issued for any building to any applicant, or a  
 376 successor or assign of any applicant, for any construction which does  
 377 not comply with this Chapter.

378 \* \* \*

379 **Sec. 25A-11. Appeals.**

380 (a) Any person aggrieved by any denial, suspension, or revocation of a  
 381 building or occupancy permit or denial, suspension, or revocation of  
 382 approval of a preliminary plan of subdivision, development plan,  
 383 floating zone plan, or site plan may appeal to the official, agency, board,  
 384 Commission, or other entity designated by law to hear such appeal.

385 \* \* \*

386 **25B-22. Compliance.**

387 \* \* \*

388 (c) *Violations.*

389 \* \* \*

390 (2) The Planning Board may revoke any previously approved  
 391 preliminary plan of subdivision, sketch plan, or site plan,  
 392 [or development plan,] upon finding a violation of this Article.  
 393

394 **25B-27. Compliance.**

395 \* \* \*

396

The Director of Permitting Services may deny, suspend, or revoke any applicable building or occupancy permit if the Director finds that the applicant or permittee has committed a violation of this Article. The Planning Board may revoke any previously approved preliminary plan of subdivision, site plan, or [development plan,] sketch plan, if the Board finds a violation of this Article.
