OPINION

Zoning Text Amendment (ZTA) 18-12, lead sponsor Councilmember Riemer, was introduced on December 11, 2018. ZTA 18-12 would allow for fences up to 8 feet tall if abutting a master planned right-of-way for a rail line or abutting any service road that provides access to a master planned right-of-way for a rail line.

As a general matter, all structures in residential zones must be set back from property lines. The amount of the setback is governed by the standards of the zone. The code provides an exception to the required setback for some fences. Deer fences and fences abutting non-residential zones may be as high as 8 feet tall and be exempt from the setback requirement. All other fences exempt from setback requirements may be no taller than 6.5 feet. ZTA 18-12 would increase the allowable height of a fence that would be exempt from a setback requirement under certain circumstances.

In its report to the Council, the Montgomery County Planning Board recommended approval as introduced. Planning staff did not object to ZTA 18-12 given that the relaxation of the height standard could assist in minimizing possible visual and audible obtrusions associated with trains.

The Council's public hearing was conducted on January 15, 2019. All testimony supported the approval of ZTA 18-12.

The Council referred the text amendment to the Planning, Housing, and Economic Development Committee for review and recommendation.

The Planning, Housing, and Economic Development Committee held a worksession on January 28, 2019. The Committee recommended approving ZTA 18-12 as introduced.

The Council agreed with the recommendation of the Committee.

For these reasons, and because to approve this amendment will assist in the coordinated, comprehensive, adjusted, and systematic development of the Maryland-Washington Regional District located in Montgomery County, Zoning Text Amendment No. 18-12 will be approved as introduced.
