

# WHITE FLINT WEST TRANSPORTATION

## NOTICE OF CONSTRUCTION NOISE

Montgomery County Department of Transportation is pleased to announce construction is moving into the next stage for the *White Flint West Transportation Improvements* project. This stage consists of the installation of the new storm drain system and will begin in early June 2020 and last for about **12 months**. To minimize pedestrian and motorist impacts, we have selected a driven H-pile support of excavation system. Once the underground drainage improvements are made they will be followed by roadway reconstruction including paving, traffic signals and signs. To minimize noise, we will use *white noise* back up alarms on construction equipment and vehicles, and install piles during day time operations.

Corman Kokosing Construction Company of Annapolis Junction, MD is the General Contractor responsible for construction. Please contact the Day | Nighttime onsite construction contacts below regarding issues and/or concerns so they get addressed immediately.

Initial utility work is tentatively scheduled on or about the following dates:

| DATE (EST.)            | STREET         | FROM   TO                     |
|------------------------|----------------|-------------------------------|
| June 2020 to June 2021 | Old Georgetown | Tilden Lane to Rockville Pike |

### SAFETY FIRST!

Please proceed with caution when driving or walking through the work areas.
