

PEI Engineering & Construction, LLC

7606 Energy Parkway

Baltimore, MD 21226

Beginning Sunday, May 2nd at 10 p.m., PEI will perform multi-lane lane closures at 2800 University Blvd West, East and West bound (MD 193) between East Ave and Midvale Rd. The work should be completed by 5:00 a.m. the next day, Monday, May 3rd. In case of inclement weather, the work will be rescheduled for 10 p.m. on Monday, May 3rd. Beginning Monday, May 3rd at 9 a.m. Crews will perform single lane closures in the same area. Work will be completed by 3 p.m. that day. A second day on Tuesday May 4th may be needed as well during the same time frame.

To complete this work, crews are permitted to close lanes in both directions of MD 193 between East Ave and Midvale Rd. During the lane closures, drivers will still be able to travel both directions on the open lanes without detour around the work zone. Additionally, the sidewalks will not be closed and pedestrians will be able to use all sidewalks safely.

For more information about this PEI project prior to the start of work, please contact Adam Phipps, Project Manager at 443-375-9816 or adam.phipps@peimd.com. For information about this project during the day the work will be performed, please contact David Lemus, General Foreman at 443-202-0323.
