

PUBLIC MEETING

Improvements to Stormwater Management Facilities in the Germantown Park Community

Join the Montgomery County Department of Environmental Protection to learn about projects to improve four existing stormwater management ponds and restore a stream segment in the Germantown Park Community (see map on back for locations). Conceptual project designs will be presented at the meeting, and residents living near project locations are encouraged to attend.

Note: this meeting will cover only Phase II ponds and stream as shown on map on reverse side.

September 17, 2015

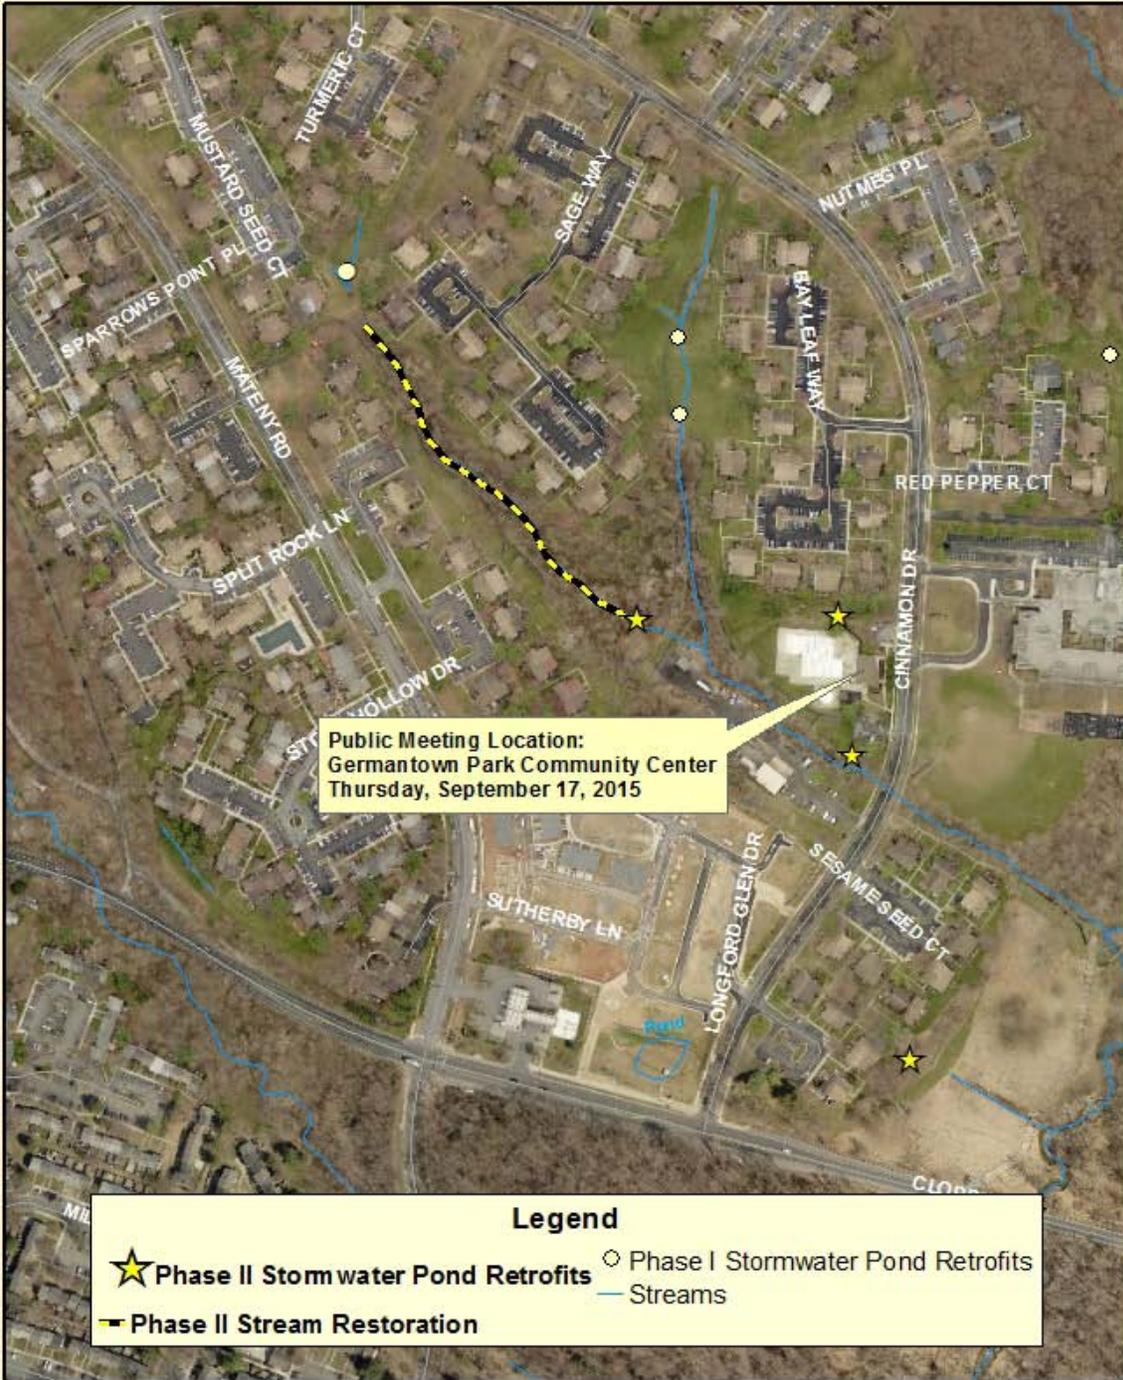

7:30 - 8:00pm
