

CONTRACTOR'S TRAINING TEST

The purpose of this test is to obtain an interim certification of training on stormwater management maintenance procedures to comply with the spirit of the Code of Montgomery County Regulations (COMCOR) 19.00.01.06. The successful completion of this test (minimum score of 70%) will allow your company to maintain and repair stormwater management facilities in Montgomery County, Maryland. The person(s) taking this test should be those individuals who will be supervising maintenance crews and responsible for maintenance performed on stormwater management facilities. Additionally, the Montgomery County Department of Environmental Protection will also include your firm on the list of contractors who have obtained the required certification of training to perform maintenance and repairs to stormwater management facilities.

Slides from the training are available for self study:

<http://www.montgomerycountymd.gov/DEP/water/stormwater-facilities.html>. Click "Contractor Resources" tab.

In order to obtain full certification, it is necessary for supervisory representatives of your company to attend the next annual Stormwater Facility Maintenance Contractor Training class. Your company's name has been placed on invitation list for the next class. Once this class has been scheduled, you will receive a letter of invitation. Typically, this class will be conducted twice a year in the spring and fall.

Once you have completed this test, please return it to:

Montgomery County Department of Protection
Stormwater Facility Maintenance Program
255 Rockville Pike, Suite 120
Rockville, Maryland 20850
ATTN: Loretha Dennis

Or via email: Loretha.Dennis@montgomerycountymd.gov

You will be notified of your test results and your interim certification will be mailed to you following your successful completion of the test.

Should you have any questions, please contact Loretha at 240-777-7764 or via e-mail at Loretha.Dennis@montgomerycountymd.gov .
