

DEPARTMENT OF HOUSING AND COMMUNITY AFFAIRS

Marc Elrich
County Executive

Aseem K. Nigam
Director

MEMORANDUM

March 29, 2021

TO: Tom Hucker, President
Montgomery County Council

FROM: Aseem K. Nigam, Director *AN*
Department of Housing and Community Affairs

SUBJECT: Annual Report on the Moderately Priced Dwelling Unit (MPDU) Program
Covering Calendar Year 2020

Section 25A-12 of Chapter 25A, Moderately Priced Housing Law, of the Montgomery County Code 2014, as amended, requires that the Director of the Department of Housing and Community Affairs (DHCA) submit to the Council President a report on the Montgomery County MPDU program for the previous calendar year. The following is a report on the Montgomery County MPDU program for the period covering calendar year 2020. This report provides overall information about the creation of affordable housing through the MPDU Program and includes a pipeline of possible future MPDUs.

Background

Montgomery County's MPDU program was the first successfully implemented inclusionary zoning program in the country. Inclusionary zoning requires that a percentage of housing units in residential developments be made available for low- and moderate-income households. In exchange for building affordable housing, a residential developer is eligible to receive benefits, such as a density bonus or more flexible development standards. The purpose of the MPDU program is to meet the County's goal of providing a full range of housing choices in the county for all incomes, ages, and household sizes.

An MPDU is a county government-regulated unit that is required to be affordable to households earning 65 percent of the area median income (AMI) for garden-style apartments, and 70 percent for high-rise apartments and for-sale units. The program's implementation involves both the public and private sectors, with the local government performing regulatory and administrative functions, and the building industry producing the housing. Between 12.5

Office of the Director

1401 Rockville Pike, 4th Floor • Rockville, Maryland 20852 • 240-777-0311 • 240-777-3791 FAX
www.montgomerycountymd.gov/dhca

and 15 percent of the total number of units in every subdivision of 20 or more units must be moderately priced, according to County law. Since the first MPDUs were built in 1976, the County's MPDU program has produced more than 16,400 affordable units.

The information below describes the number of MPDUs approved and built over calendar year 2020. In order to begin to build any units in a subdivision, a developer must sign an agreement with the County, called an MPDU Agreement to Build, that approves the exact locations and types of the individual MPDUs in the subdivision. In order to rent or sell any MPDUs, a developer must sign an agreement with DHCA, called an MPDU Offering Agreement, that stipulates the rent or sales price of each MPDU.

The Number of MPDUs Approved

The MPDU Program approved 183 MPDUs during 2020. For the purposes of this report, the number of MPDUs approved is the number of MPDUs approved to be built through executed Agreements to Build. DHCA executed 6 new Agreements to Build during calendar year 2020 that approved 183 MPDUs. These agreements covered 960 total units. The MPDUs are 19.1% of the total units in these Agreements to Build. A list of the 2020 Agreements to Build can be found in [Attachment A](#).

The Number of MPDUs Built

The total number of MPDUs offered during 2020 was 244. These MPDUs were approved in Agreements to Build in previous years. For the purposes of this report, the number of MPDUs built is the number of MPDUs offered for sale or rent to eligible MPDU households through executed Offering Agreements. DHCA approved 14 individual MPDU Offering Agreements during calendar year 2020 for 13 different developments (the Clarksburg Town Center development had two offerings). These Offering Agreements represented 82 new for-sale MPDUs and 162 new rental MPDUs, for a total of 244 MPDUs. The list of offerings in a year is not related to the list of Agreements to Build in the same year, since those agreements were executed before the first building permit for the development was obtained. It can take several years for a development to build out. The specific Offering Agreements approved, by development, can be found in [Attachment B](#).

The Number of MPDUs Under Controls

Each year, the number of units in the MPDU program increases as new MPDUs are built. Since 2005, for-sale MPDUs have 30-year renewing controls, which means that they stay under MPDU controls forever, unless an MPDU owner lives in the unit for more than 30 years. Rental MPDUs have 99-year controls now. Before 2005, for-sale units had 10- year controls, and MPDU owners were required to make a shared profit payment to the County if they earned a "windfall profit" on the sale of their MPDU. Rental MPDUs had twenty-year MPDU controls. MPDUs created before 2005 slowly leave the program as MPDU owners sell their units and pay a shared profit, and as rental MPDU controls expire after twenty years. Twelve

representing 405 MPDUs. DHCA has been successful in negotiating agreements with rental property owners to extend expiring MPDUs, and will continue to try to preserve as many expiring rental properties as possible.

MPDUs PROVIDING AFFORDABLE HOUSING 2019 TO 2020				
	2019	2020	Change from 2019 - 2020	Notes
For-Sale MPDUs	1,673	1,698	25	Units owned by MPDU participants
Nonprofit Owned	339	343	4	Owned by approved nonprofits and rented out
HOC Owned	1,266	1,278	12	Owned by HOC and rented out
Rental MPDUs	2,627	2,784	157	Units in rental developments
Total MPDUs	5905	6,103	198	Ownership: 1,654. Rental: 6,426
<u>Expired MPDUs</u>				
No Shared Profit Paid		<u>1,920</u>		MPDU owners continuing to live in MPDUs
Total MPDUs		8,023		Total MPDUs providing affordable housing
Sold/Paid Shared Profit	18	24		MPDU owners sold/ paid shared profit if owed

One of the most important features of the MPDU program is how it creates rental units that are affordable to very low-income households and to persons with special needs. Approved nonprofit housing providers are allowed to purchase, or master-lease, a percentage of the units created in any subdivision or apartment building. By the end of 2020, nonprofit organizations owned 343 MPDUs throughout Montgomery County. These units are rented to low-income households, generally below 50% AMI which is two-person household under \$50,400 and to individuals needing specialized housing. The Housing Opportunities Commission also purchases MPDUs to rent to low income households generally below 50% AMI and owns 1,278 MPDUs that are used as rental housing.

Alternative Payment or Location Agreements

During calendar year 2020, one Alternative Payment Agreement was signed for a high-rise condominium with high condominium fees. A complete list of all Alternative Agreements approved for the MPDU Program can be found in Attachment C.

The Use of Funds in the Housing Initiative Fund

The Department is required to report on MPDU alternative payments made to the Housing Initiative Fund and the use of such payments. During the calendar year covered by this report, alternative payments were received from two projects:

- In 2020, thirty payments totaling \$583,876 were received from the Courts at Clarksburg development. The Alternative Payment Agreement for this development was signed in 2017. The prices of the market-rate homes in this age-restricted for-sale development have increased, which means the amount of funds to the Housing Initiative Fund will increase. When this Alternative Payment Agreement was signed in 2017, DHCA estimated that the payment per MPDU would be approximately \$128,000. The Alternative Payments so far translate into a payment of over \$152,000 per MPDU. These funds will be used to preserve expiring MPDUs in Bethesda and were used for part of the financing of the Scotland Community development in Potomac.
- One other development made Alternative Payments in 2020. Two payments totaling \$91,866 were received from the Villa Cortese development in the Aspen Hill area based on an agreement signed in 2017. This payment was targeted toward the purchase of an MPDU in Bethesda by a nonprofit organization serving formerly homeless individuals.

MPDU “PIPELINE”

In previous years, the members of the Planning, Housing, and Economic Development (PHED) Committee have asked for a report on the development “pipeline” for MPDUs. As a member of the Development Review Committee (DRC) at the Maryland National Capital Park and Planning Commission (M-NCPPC), DHCA receives information on pending development applications that contain MPDUs. DHCA then tracks these projects in the MPDU database from planning approval through the Agreement to Build and Offering Agreement processes, and ultimately through sale or rental to eligible households. Attachment E is a chart that shows pending Agreements to Build and “New Projects,” which are those that are in some stage of the planning and development review process in M-NCPPC. If these projects build out as planned, over time more than 5,000 MPDUs would be added to the MPDU inventory.

MPDU Program Administration Enhancements and Improvements

The MPDU Program implemented a number of administrative improvements in 2020. Some of these program enhancements had been planned for some time; others were developed as a response to the COVID-19 pandemic.

MPDU Application Portal: The MPDU program relied on paper application forms for decades. In 2020, when an online format was required, a new system had to be designed. To tackle this challenge, staff in DHCA’s IT and MPDU sections collaborated to

design and implement a secure online portal for applicants to the MPDU program, which was launched on November 9, 2020. Applicants are now able to log onto the portal, take a pre-recorded Application Tutorial that includes quizzes, complete their application, and securely upload supporting documents. The new portal improves security and convenience for new and renewing MPDU applicants. It also saves DHCA time previously spent conducting in-person classes and manually entering application information.

Online MPDU Classes: The MPDU program moved all MPDU training and application classes to online in 2020. Before the pandemic, the MPDU Program offered three types of in-person MPDU training classes to households who were interested in purchasing an MPDU. When the classes had to move to a remote format, working with the MPDU nonprofit contractor, Housing and Community Initiatives, Inc., the MPDU program staff completely overhauled the training program by redesigning the PowerPoint presentations and transferring the required documents to be downloadable. In 2020, although the MPDU offices were officially closed because of the pandemic and training classes were suspended for several months, the program held the following classes:

- MPDU First-Time Homebuyer Class: 20 classes with 1,625 participants
- MPDU Orientation Seminar: 14 classes with 1,307 attendees
- MPDU Application Session: 5 classes with 112 attendees
- MPDU Application Renewal Session: 7 classes with 113 attendees

Notes on MPDU Alternative Agreements:

1. Forest City, Chevy Chase: This elderly condominium housing project was not affordable to MPDU eligible households due to the high fees associated with services in the property. MPDUs are oriented to first time homebuyers, which is difficult to find in the elderly population. Because of environmental constraints, no bonus density was obtained.
2. Madison Park High Rise condominium, Bethesda: The high condominium fees made this unaffordable to MPDU eligible households.
3. Beacon Hill, North Bethesda: The high homeowner's association (HOA) fees made these units unaffordable as MPDUs.
4. Fairmont Plaza, Bethesda: The high-rise building included services and structured parking that required high fees making the units less affordable to MPDUs tenants.
5. Chase Grove at Washingtonian Center, Gaithersburg: Provided 11 additional MPDUs in a garden apartment portion of the development as an alternative to piggyback townhouse MPDUs with high condominium and HOA fees.

Attachment C

6. James Creek, Olney: This 10-unit subdivision was added to the project after all MPDUs were completed in the development. To design one detached MPDU would have unfairly burdened the development with architectural costs that are normally allocated over significantly more units.
7. Sumner Gate, Potomac: It was deemed impossible to make the MPDUs compatible with the market priced units.
8. Cameron Hill, Silver Spring: High condominium fees in an 8-unit condominium section of this townhouse project would have made these units unaffordable as MPDUs. The alternative payment was committed to the Manchester Manor apartments in the same planning area where 43 existing units in poor condition were being rehabilitated by HOC with affordable rents.
9. Crescent Park, Bethesda: This high-rise building included service and structured parking that required high fees making the units less affordable to MPDU tenants. The developer offered to provide more MPDUs in the Seasons, a nearby apartment building in the Bethesda CBD.
10. Chairington, Rockville: The rest of the MPDU requirement for this development was completed with piggyback townhouse units. The one additional MPDU would have had to be a townhouse. The HOA fees were high, and with the increased MPDU price for the larger unit, the MPDU would have been less affordable.
11. The Whitney, Bethesda: Ten one-bedroom rental MPDUs provided in the high-rise building. High construction costs associated with preserving the theater and extensive amenities made providing more MPDUs financially difficult.
12. Bethesda Air Rights: [Cancelled] *Seven efficiencies and seven one-bedroom units to be provided on-site in the high-rise building. High construction cost associated with modifying and constructing over an existing parking garage and extensive amenities require very high rents to offset.* Subsequently, the site plan was amended to eliminate the residential portion of the project.
13. The Gallery at White Flint Place, North Bethesda: Forty MPDUs evenly divided between efficiencies and one-bedrooms provided on-site in two buildings. High rise construction costs and the high condominium fees made providing all of the MPDUs difficult.
14. Wheaton CBD, Wheaton: Two phases in this development. The rental portion, known as the Flats at Wheaton Station, provided 15 of the required 30 MPDUs. The piggyback townhouse condominiums located in the second phase had high HOA fees, making the 10 MPDUs unaffordable. The developers paid \$574,000 instead of providing 10 for-sale MPDUs and 15 additional rental units in the apartment building.
15. Wisconsin Place, Friendship Heights: Seventeen efficiencies and one-bedroom MPDUs provided in project. High rise construction costs made it difficult to provide all of the MPDUs.
16. Grosvenor Village, North Bethesda: The Grosvenor Village subdivision had multiple phases. Twenty-four MPDUs were provided in the Meridian at Grosvenor Station and Avalon at Grosvenor Station apartment developments. The 2005 Alternative Agreement allowed payment in lieu of 18 rental MPDUs.
17. 8045 Newell Street, Silver Spring: Ten one-bedroom condominiums provided on-site. High condominium fees made the two-bedroom units unaffordable for MPDU certificate holders.
18. Rosedale Park, Bethesda: Seven efficiencies and four one-bedroom units provided on-site. High rise construction costs, height limits and street right-of-way made providing the MPDUs difficult.
19. The Adagio (Bethesda View), Bethesda: Condominium fees and unit construction costs resulted in MPDUs being unaffordable.

Attachment C

20. The Sterling, White Flint: Twelve one-bedroom units provided on-site. Payment for thirteen two-bedroom MPDUs based on 10% of the average sale price of the market units. The construction cost for high rise units and the high condominium fees for two-bedroom units made them unaffordable to MPDU eligible households.
21. Rock Spring Centre, North Bethesda: Two high rise buildings, one containing 351 units (Tower I) and the other containing 352 units (Tower II), with 32 on-site MPDUs provided in each building and 48 MPDUs subject to an Alternative Payment Agreement of \$33,000 per unit (or \$1,584,000).
22. Edgemoor at Arlington North. Land provided in lieu of providing for-sale MPDU with ten year controls. HOC constructed a 12-unit building providing permanent supportive housing for formerly homeless individuals.
23. The Quarry, Potomac: Four mid-rise, five-story residential buildings containing a total of 97 units. The condominium fees and sales prices for the MPDUs would exceed the affordability levels for certificate holders.
24. Park Potomac, Potomac: Six high-rise, residential buildings containing 450 units, all originally planned as condominiums. Sixty-one MPDUs were required, of which 30 units were provided on-site, and an alternative payment was made for the other 31 units because the construction cost of the units and the high condominium fees made them unaffordable to MPDU eligible households.
25. Woodside Courts, Silver Spring: This site was rezoned to permit 26 units in 2004 (no MPDUs were required at that time). The site plan was approved in 2006, after the MPDU law was changed in 2005 to reduce the number of units that triggered the MPDU requirement from 35 to 20 units or more. In approving the site plan, the Planning Board set the MPDU requirement at four units, but waived three of the four units. The applicant submitted a request to the ARC for an alternative payment for the 1 remaining unit, based on the environmental and historic constraints of the site and the fact the full density of the zone could not be achieved under the rezoning and site constraints. The ARC approved an alternative payment for one MPDU.
26. Burning Tree/Fox Hill, Bethesda: This Continuing Care Retirement Community was approved under a special exception requiring an affordable housing component. While not technically MPDUs, the 36 affordable units were to be available to persons earning 50% of the median income. The high service fees would have made the units unaffordable to persons at this income level. The County and the developer executed an Amended and Restated Settlement Agreement in lieu of litigation.
27. Hampden Lane, Bethesda: This high-rise condominium in downtown Bethesda received a density bonus and therefore was not eligible for an Alternative Payment. The combination of MPDU sales prices and condominium fees make the units unaffordable to MPDU eligible buyers. Under the terms of the Alternative Location Agreement, the developer paid HOC \$1,434,000. In return, HOC converted 12 rental market units in buildings in the Bethesda/Chevy Chase planning area to rental MPDUs with 30-year controls.
28. The Octave (1320 Fenwick), Silver Spring: This 102-unit high-rise condominium (a converted office building) in downtown Silver Spring was relatively affordable due to the small size of the units, but the condominium fees still made the MPDUs unaffordable to MPDU eligible buyers. The Alternative Payment was based on 3% of total sales revenue, consistent with DHCA's adopted policy. Payments were paid at the settlement of each unit in the building.
29. Courts at Clarksburg, Clarksburg: The units in this single-family detached age-restricted development were too expensive for MPDU eligible purchasers when combined with the HOA fee. In addition, prior experience has shown that there is very little demand for for-sale age-restricted MPDUs. The Alternative Payment was based on 3% of total sales revenue. Payments are due at the settlement of each unit in the building.
30. Solera Reserve at Kensington, Kensington: The projected monthly fees for services, when added to the projected monthly rental payment for the MPDUs would not be affordable to persons eligible to participate in the MPDU program. This property would have been required to have 8 one-bedroom and 2 two-bedroom units. Instead, through an Alternative Location Agreement, this property provided funds to allow 7 one-bedroom units and 3 two-bedroom units to be built at another senior rental housing development just blocks away.

Attachment C

31. The Claiborne Condominiums, Bethesda: An Alternative Payment Agreement was signed in 2020 that will total an estimated \$1.6 million in payments in lieu of providing 13 MPDUs in this high-rise condominium with high condominium fees. The payment amount will be based on 3% of all sales at the property, as required by current County law. The condominium fee could not be unbundled and would make the cost of ownership of the MPDUs unaffordable to MPDU-qualified purchasers.
