Scott Bruton
Director

MEMORANDUM

March 15, 2025

TO: Marc Elrich, County Executive
Kate Stewart, Council President

FROM: Scott Bruton, Director 
Department of Housing and Community Affairs

SUBJECT: Annual Report on the Moderately Priced Dwelling Unit (MPDU) and Workforce Housing Programs (WFH) Covering Calendar Year 2024

Montgomery County has two inclusionary zoning programs, the Moderately Priced Dwelling Unit (MPDU) program and the Workforce Housing (WFH) program. Section 25A-12 of Chapter 25A, Moderately Priced Housing Law, of the Montgomery County Code 2014 (Chapter 25A), as amended, requires that the Director of the Department of Housing and Community Affairs (DHCA) submit to the Council President a report on the MPDU program for the previous calendar year. Likewise, Section 25B-24(h) of Chapter 25B, WFH Law, requires the same for the Workforce Housing Program. The following is an accounting of those affordable housing programs for the calendar year 2024. This report provides information about the creation and lifespan of affordable housing units through the two programs.

MODERATELY PRICED DWELLING UNIT PROGRAM

Background

The MPDU program provides housing for moderate-income households to meet the County's goal of providing a full range of housing choices for all incomes, ages, and household sizes. Montgomery County's MPDU program was the first successfully implemented inclusionary zoning program in the country in 1974. Inclusionary zoning requires that a percentage of housing units in new residential developments be made available for moderate-income households. In exchange for building affordable housing, a residential developer is eligible to receive benefits, such as a density bonus or additional height.

MPDUs are required in all new developments of 20 or more units in Montgomery County. MPDUs must be affordable to households earning 70% of area median income (AMI) for the

montgomerycountymd.gov/311

240-773-3556 TTY

Washington Metropolitan Statistical Area for high-rise rental apartments and all for-sale units and to households earning 65% of AMI for garden-style rental apartments. The program's implementation involves both the public and private sectors. On the public sector side, government staff performs regulatory and administrative functions to ensure compliance with the Code. On the private sector side, the program requires the building industry to provide between 12.5 to 15 percent (depending on the location of the property) of the total number of new units in every subdivision of 20 or more units to be moderately priced. Some developments exceed those standards to take advantage of tax or development incentives provided in the County Code. As a result, the MPDU program has successfully produced more than 17,300 affordable units since the first MPDUs were built.

MPDU Program Administration

The MPDU rental and sales programs are administered differently. Rental rates (1) are initially set based on income levels (so that households pay no more than 25% of their income toward housing), (2) are administered by the leasing offices (review of individual applications), and (3) require annual recertification of tenants' income if they remain in the MPDU. DHCA staff coordinate with leasing offices to ensure that they are administering the program correctly but do not directly apply the program rules.

DHCA administers the sales program at multiple levels. Staff work with applicants to ensure that they (1) have taken all required training (discussed below), (2) have submitted the correct documentation and are eligible for the program, and (3) can apply for units that they qualify for and are interested in. Staff also work with developers and sales teams to (1) ensure that units meet the livability standards and price requirements of the program, (2) advertise new and resale units to applicants, (3) confirm that the sales process complies with program rules, and (4) confirm that all homeowners are remaining in compliance with the MPDU rules and covenants.

Applicants

To become an MPDU Certificate Holder and be permitted to purchase an MPDU, applicants must complete three (3) stages of review. The first, the MPDU Orientation Seminar, is a 2-hour class that provides an overview of the MPDU program and the rules and requirements associated with purchasing a unit. The second is an 8-hour long HUD Certified first-time homebuyer class providing education on the considerations of owning a home. Finally, to ensure homebuyers understand what is taught in the first two classes, there is a reminder tutorial with quizzes called the MPDU Application Tutorial. In 2024, DHCA continued the partnership with the Greater Washington Urban League to conduct the MPDU Orientation Seminar and First Time Homebuyer classes.

- MPDU Orientation Seminar: 24 classes provided with a total of 786 attendees
- MPDU First-Time Homebuyer Class: 12 classes provided with a total of 733 participants (an additional 11 First-Time Homebuyer Class participants took classes from a HUD-approved external agency, not GWUL)

- MPDU Application Tutorial: 448 Tutorial participants

Applicants must submit their application and financial documentation for review through the MPDU Application Portal. (MPDU rental applicants apply directly to the leasing office of each development and are reviewed and approved there.) Of the 448 new tutorial participants, all went on to file their MPDU application. The MPDU certificate is only valid for one year because income must be recertified annually. As a result, there were also 174 renewing applicants. MPDU staff review each application for completeness, income eligibility (both over and under income for the program), and compliance with other requirements under Chapter 25A. In 2024, the applications reviewed were as follows:

- 448 total applications: 274 new applicants and 174 renewing applicants
- 70 applications denied
 - 31 because the household was over income
 - 1 because they were a previous homeowner
 - 38 because they were incomplete
- 378 applications approved: 228 new applicants and 150 renewing applicants

Applications are labeled as incomplete when requested information is not responded to and submitted within three months. Throughout this period, staff reminded applicants to submit any missing documentation. If the required information remains outstanding after this timeframe, the application is denied.

MPDU Development

The Affordable Housing Programs Section of DHCA coordinates with developers at multiple stages of the development process to ensure that MPDUs are provided in accordance with the Code. To obtain a building permit from the Department of Permitting Services, a developer must sign an agreement with the County called an MPDU Agreement to Build. At that stage, staff confirm that units are reasonably distributed throughout the project. DHCA has interpreted reasonably distributed to mean that MPDUs may not be clustered together nor placed in the least desirable locations of a development. Staff also confirm that the bedroom ratios between MPDUs and market-rate units are maintained. Unit layouts are reviewed to ensure livable, quality units for tenants and purchasers.

To rent or sell any MPDUs, a developer must sign an Offering Agreement with DHCA that stipulates the rent or sales price of each MPDU. Offering Agreements are executed at the time units are ready to be sold or leased. New development rent rates are based on income and adjusted for bedroom/household size to ensure that households pay no more than 25% of their income on housing. Sales prices, on the other hand, are based on construction costs. Prices are determined based on set standards in MPDU Regulations and are reviewed by staff to ensure the units remain affordable.

The MPDU Regulations include annual adjustments to itemized pricing to keep sales prices in line with current construction costs. This price adjustment is based on the past five-year average of the Consumer Price Index for Urban Consumers (CPI-U) for the Washington Metropolitan Area and occurs every February. In 2024, the 5-year CPI-U average required a 3.41% price increase for each value provided in the pricing regulations.

The information below describes the number of MPDUs approved and built during the calendar year 2024.

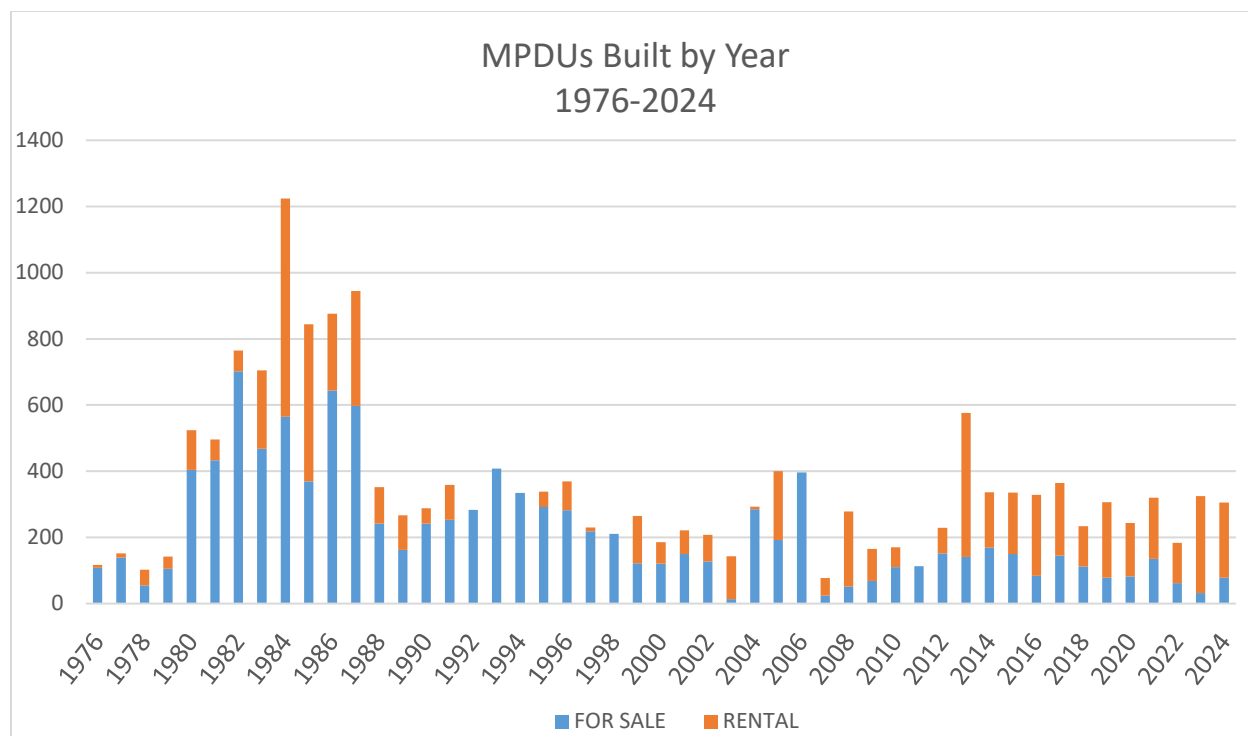

The Number of MPDUs Approved

The MPDU Program approved 238 MPDUs and 3 WFH Units during 2024. For the purposes of this report, approved means that DHCA entered into an Agreement to Build with developers that, after construction is completed (sometime in the next 1-3 years), those units will be available to future MPDU participants. DHCA executed 12 new or amended Agreements to Build that will create 3 WFH and 238 MPDUs: 89 for sale and 149 rentals. These agreements covered 1,495 total (market rate, WFH, and MPDU) units. A list of the 2024 Agreements to Build can be found in [Attachment A](#).

The Number of MPDUs Built

During 2024, 305 new MPDUs were built. For the purposes of this report, the number of MPDUs built is the number of units reported in Offering Agreements, either for sale or rental. DHCA approved 22 MPDU Offering Agreements during calendar year 2024 for 15 Developments; four (4) developments have multiple offering agreements. These Offering Agreements represented 78 new for-sale MPDUs and 227 new rental MPDUs, for a total of 305 MPDUs. The list of Offering Agreements approved by DHCA can be found in Attachment B.

The list of offerings in a year is not necessarily related to the list of Agreements to Build in the same year since Agreements to Build are executed before the first building permit for a development can be obtained. It can take several years for a development to build out. The units designated in an Agreement to Build are typically completed within three (3) years.

The Number of MPDUs Under Control

Each year, the number of units controlled through the MPDU program increases as new MPDUs are built. Since 2005, for-sale MPDUs have had 30-year renewing controls, which means that most MPDUs stay under MPDU control indefinitely until a single owner lives in the unit for more than 30 years. Because few homeowners remain in their primary residence for 30 years, most units must restart their 30-year covenants on resale.

Before 2005, for-sale units had 10-year controls, and MPDU owners were required to make a shared profit payment to the County if they earned a profit on the sale of their MPDU. MPDUs created before 2005 slowly leave the program as MPDU owners sell their units and pay a shared profit. The amount of shared profit depends on many factors, including the market sale amount, and is based on a set formula established in the County Code and recorded MPDU Covenants.

In 2024, eighteen (18) MPDU units were resold at market rate and left the program. Two (2) of these units left due to foreclosure proceedings, while the remaining sixteen (16) units were released due to the control period ending. The total shared profit received from these terminated MPDUs in 2024 was \$1,268,000. As more 30-year recurring control period units become the majority of MPDUs in the program, we can expect that the number of shared profit terminations will continue to decrease.

Rental MPDUs had 20-year MPDU controls before 2005; since then, rental MPDU developments have had 99-year controls. There were no developments where the MPDU control period expired or reached the end of the MPDU control period in 2024.

MPDUs PROVIDING AFFORDABLE HOUSING 2023 TO 2024				
	2023	2024	Change from 2023 - 2024	Notes
MPDU's Under Control Period				
For-Sale MPDUs	1,779	1,839	60	Units owned by MPDU participants (still under control period)
Nonprofit Owned	345	348	3	Owned by approved nonprofits and rented out
HOC Owned	1,279	1,282	3	Owned by HOC and rented out
Rental MPDUs	3,293	3,520	227	Units in rental developments, including LIHTC properties
Total MPDUs	6,696	6,989	293	
MPDUs Not Under Control Period				
No Shared Profit Paid	1,844	1,882	38	MPDU owners continuing to live in MPDUs (control period expired)
TOTALS				
Total MPDUs	8,540	8,871	331	Ownership: 5,351 Rental: 3,520
Units Lost to the Program				
Sold/Paid Shared Profit/Foreclosure	19	18*	-1	MPDU owners sold/ paid shared profit if owed or foreclosure
Expired Rentals	199	0	-199	Apartments with expired covenants
*Two properties left the WFH program that are not captured in the chart.				

An important feature of the MPDU program is how it creates rental units that are affordable to very low-income households (under 50% of AMI) and to persons with special needs. Approved nonprofit housing providers are allowed to purchase, or master lease, up to 40% of the units created in any subdivision or apartment building. By the end of 2024, nonprofit organizations owned 348 MPDUs throughout Montgomery County. These units are rented to very low-income households and to individuals needing specialized housing. The Housing Opportunities Commission has also purchased MPDUs to rent to lower-income households and owns 1,282 MPDUs that are used as rental housing.

Alternative Payment or Location Agreements

Chapter 25A allows DHCA, at its discretion, to enter into either an Alternative Location or an Alternative Payment Agreement, depending on a development meeting certain qualifying requirements. Historically, DHCA has approved Alternative Agreements to avoid MPDU participants paying high condominium or homeowner association fees.

During the calendar year 2024, DHCA entered into three (3) new Alternative Locations Agreements and one Alternative Payment Agreement for three developments. These agreements

were necessary to make these senior housing developments affordable, as they included high service fees as part of their monthly costs.

- Pinnacle—The Pinnacle development is a 17-story high-rise with a minimum of 101 independent living dwelling units that, with a 15% MPDU set aside, is required to construct 14 MPDUs. The developer of this project, Silverstone Senior Living, estimated that 60% of their monthly charge to tenants is associated with service fees. The Pinnacle’s projected monthly fees will be over \$7,500/month per person. Tenants would still be obligated to pay \$4,000/month (60% of \$7,500) for services alone, in addition to rent, which many MPDU tenants cannot afford. Through an Alternative Location Agreement, this property provided funds to allow for 16 MPDUs to be built at an HOC site to be identified in Bethesda. Interest earned on the funds will be used to buy down rents for other HOC families in Bethesda until the new property can be constructed.
- Corso Chevy Chase: Corso Chevy Chase proposes to construct a 287-unit independent living development that will include 190 assisted living and 30 memory care beds. The MPDU requirements require 59 MPDUs to be on-site. Corso estimated that 60% of their monthly charge to tenants is associated with service fees. Projected monthly fees will be over \$7,000 / month per person. If that estimate is right, tenants would still be obligated to pay \$4,200/month for services alone because the MPDU Code does not control those costs. Participants in the MPDU program cannot afford housing costs that high. Through an Alternative Location Agreement, this development provided funds to allow for 68 MPDUs to be built at an HOC site to be identified in Bethesda. Interest earned on the funds will be used to buy down rents for other HOC families in Bethesda until the new property can be constructed.
- Heritage Potomac - Heritage Potomac includes both for sale and rental senior restricted living units. The for-sale side of the development will include 44 age-restricted townhomes. The rental side will include 27 independent living units and 32 assisted living units (designed as dwelling units) for a total of 59 dwelling units. The base monthly rent for the Lodge independent living units will range from approximately \$7,300 per month for a one-bedroom, one-and-one-half bath unit to just over \$10,500 per month for a two-bedroom plus den unit, which includes services.
 - Alternative Payment - Section 25A-5(1) of the Code provides that age-restricted developments offered for sale must satisfy their MPDU requirement by making a payment to the Housing Initiative Fund. As a result, DHCA entered into an Alternative Payment agreement with Heritage Potomac to receive 3% of their 44 townhomes' future sales prices when the units are initially sold. DHCA expects to receive the first payments in 2026.
 - Alternative Location – Heritage Potomac will provide funding for nine (9) MPDUs to be located on an HOC site, at least five (5) of which will be two-bedroom units. Interest earned on the funds will be used to buy down rents for other HOC families in Bethesda until the new property can be constructed.

A complete list of all Alternative Agreements ever approved for the MPDU Program can be found in [Attachment C](#).

The Use of Funds in the Housing Initiative Fund

DHCA is required to report on MPDU alternative payments made to the Housing Initiative Fund (HIF) and the use of such alternative payments. During the calendar year covered by this report, no alternative payments were received.

MPDU and Workforce “Pipeline”

In previous years, the members of the Planning, Housing, and Parks (PHP) Committee (previously the Planning, Housing, and Economic Development Committee) have asked for a report on the development “pipeline” for MPDUs. As a member of the Development Review Committee (DRC) at the Maryland-National Capital Park and Planning Commission (M-NCPPC), DHCA receives information on pending development applications that contain MPDUs and Workforce Units. DHCA then tracks these projects in the MPDU database from planning approval through the Agreement to Build and Offering Agreement processes and ultimately through sale or rental to eligible households.

[Attachment E](#) lists currently unbuilt potential projects. That list includes units in existing Agreements to Build (though some of these units may be in the construction stage, they are not yet complete), as well as “New Projects,” which are those that are in some stage of the planning and development review process in M-NCPPC. The list of Agreements to Build includes those completed in 2024 and prior years because construction can often take multiple years to complete. The New Projects list was compiled from projects staff have reviewed through DRC in various stages of approval. If these projects build out as planned, over time, almost 3,737 new MPDUs, serving households with incomes of 70% of AMI or less, would be added to the MPDU inventory. There would also be 156 Workforce Housing Units that will be serving households with incomes between 70% and 120% of AMI.

MPDU Residency Certification

The 2024 resident certification was mailed to all MPDU homeowners. The certification is in accordance with Chapter 25A-10, which allows DHCA to verify residency and ensure adherence to the program rules and MPDU covenants. Homeowners were asked to submit two (2) forms of address verification and a copy of a government-issued photo ID to complete the resident certification. DHCA staff removed the notary requirement in 2024 to enhance the process and increase the response rate from previous years.

DHCA’s goal is to verify MPDU residency to ensure that all levels of compliance are enforced. MPDU homeowners currently within the control period must adhere to (1) using the property as a primary residence and (2) not using the MPDU as a rental property. DHCA was also able to verify in situations where the unit was previously sold prior to the resident certification mailing that 1) payment to the HIF was submitted in accordance with the regulations and (2) a release of

covenants was recorded where necessary. Staff mailed out 1,806 residency certification forms in 2024 with a 60% response rate. The response rate increased by 1% from the previous year. The certification forms were available on the DHCA website and in the DHCA office for in-person pick-up.

In 2023, staff identified the notary requirement as the primary obstacle for MPDU homeowners to fulfill the verification process. The notary requirement was removed to enhance the response rate in 2024. Out of 950 respondents, 1 % of respondents submitted incomplete residency verification documents, compared to 6% in 2023.

During the certification process, DHCA continues to identify and rectify deficiencies in MPDU tracking and enforcement, resulting in increased compliance with the MPDU ownership data. While the Department does not prefer to have non-compliant homeowners, it continues to be able to identify and address those who are non-compliant homeowners.

WORKFORCE HOUSING PROGRAM

The Workforce Housing (WFH) Program is meant to create housing affordable for households with incomes at or below 120% of AMI. Unlike the MPDU program, developers do not need to provide WFH units. These units are typically created when recommended under the relevant Master or Sector Plan or as part of a Development Agreement. The WFH projects are reported in Attachment A.

One Agreement to Build was executed in 2024, generating three (3) WFH units. Westside at Shady Grove Phase 4 will provide 38 units, 6 of which will be MPDUs and 3 WFH for-sale townhomes.

The total shared profit received for WFH in 2024 was \$65,616. DHCA released workforce housing covenants on two (2) townhomes to allow homeowners to sell. Due to recent interest rates and the resale calculation method required for workforce housing units under the Code and Regulations and incorporated into the Covenants for the property, both properties were determined to exceed affordability for future purchasers. Conducting the resale calculation following the WFH covenants stipulates that capital improvements, CPI difference over time, real estate sales commission, and appraisal value are all considered when determining the 2024 sale price of the property.

When compared to the affordability amount, the resale prices calculated under the Code were higher than the average WFH applicant could afford. The comparable numbers are shown in the table below. The affordability amount is based on the AMI in 2024 and considers factors such as Homeowner Association fees for the applicable development, taxes, and interest rates. As the program cannot sell units valued higher than their purchasers can afford, the units were released.

Development Name	Initial WFH Purchase Price	2024 Affordability Amount based on 90% of AMI	Resale WFH Price in 2024
Westside Shady Grove	\$434,891.00	\$453,142.00	\$490,376.00
Westside Shady Grove	\$453,061.00	\$473,012.00	\$521,703.00

DHCA expects this trend to continue in the future for all WFH homeowners who wish to sell.

34.	2023	The Quad	North Bethesda Center	High-Rise Condominiums	164 (for all 4 buildings in the Quad development)	Alternative Location		Contingent Alternative Location Agreement to allow MPDUs from all 4 buildings on site to be located in the Wentworth if financing is secured for renovation	187 (for all 4 buildings in the Quad development)

Attachment C

	Date	Project Name (Site Plan #)	Developer	Unit Type	MPDU Requirement	Alternate Payment/ Location	Payment Per MPDU	Notes	MPDUs Not Provided On-Site
35.	2024	The Pinnacle	Silverstone Bethesda	High-Rise Independent Living	14	Alternative Location		MPDUs relocated to a future HOC-sending site in Bethesda	16
36.	2024	Corso Chevy Chase	Corso, C, LLC	High-Rise Independent and Assisted Living	59	Alternative Location		MPDUs relocated to a future HOC-sending site in Bethesda	68
37.	2024	Heritage Potomac	Hertage Gardens Land, LLC	Garden Independent and Assisted Living and townhomes	9	Alternative Location and Alternative Payment	TBD	The rental portion of the development will relocate the 9 MPDUs required to a future HOC-sending site in Bethesda. The sales portion of the development will make a payment to the HIF with each settlement of the 44 for-sale senior restricted units.	9

Notes on MPDU Alternative Agreements:

1. Forest City, Chevy Chase: This elderly condominium housing project was not affordable to MPDU eligible households due to the high fees associated with services in the property. MPDUs are oriented to first time homebuyers, which is difficult to find in the elderly population. Because of environmental constraints, no bonus density was obtained.
2. Madison Park High Rise condominium, Bethesda: The high condominium fees made this unaffordable to MPDU-eligible households.
3. Beacon Hill, North Bethesda: The high homeowner's association (HOA) fees made these units unaffordable as MPDUs.
4. Fairmont Plaza, Bethesda: The high-rise building included services and structured parking that required high fees making the units less affordable to MPDU tenants.
5. Chase Grove at Washingtonian Center, Gaithersburg: Provided 11 additional MPDUs in a garden apartment portion of the development as an alternative to piggyback townhouse MPDUs with high condominium and HOA fees.
6. James Creek, Olney: This 10-unit subdivision was added to the project after all MPDUs were completed in the development. To design one detached MPDU would have unfairly burdened the development with architectural costs that are normally allocated over significantly more units.
7. Sumner Gate, Potomac: It was deemed impossible to make the MPDUs compatible with the market priced units.
8. Cameron Hill, Silver Spring: High condominium fees in an 8-unit condominium section of this townhouse project would have made these units unaffordable as MPDUs. The alternative payment was committed to the Manchester Manor apartments in the same planning area where 43 existing units in poor condition were being rehabilitated by HOC with affordable rents.

Attachment C

9. Crescent Park, Bethesda: This high-rise building included service and structured parking that required high fees making the units less affordable to MPDU tenants. The developer offered to provide more MPDUs in the Seasons, a nearby apartment building in the Bethesda CBD.
10. Charrington, Rockville: The rest of the MPDU requirement for this development was completed with piggyback townhouse units. The one additional MPDU would have had to be a townhouse. The HOA fees were high, and with the increased MPDU price for the larger unit, the MPDU would have been less affordable.
11. The Whitney, Bethesda: Ten one-bedroom rental MPDUs provided in the high-rise building. High construction costs associated with preserving the theater and extensive amenities made providing more MPDUs financially difficult.
12. Bethesda Air Rights: [Cancelled] *Seven efficiencies and seven one-bedroom units to be provided on-site in the high-rise building. High construction cost associated with modifying and constructing over an existing parking garage and extensive amenities require very high rents to offset.* Subsequently, the site plan was amended to eliminate the residential portion of the project.
13. The Gallery at White Flint Place, North Bethesda: Forty MPDUs evenly divided between efficiencies and one-bedrooms provided on-site in two buildings. High rise construction costs and the high condominium fees made providing all of the MPDUs difficult.
14. Wheaton CBD, Wheaton: Two phases in this development. The rental portion, known as the Flats at Wheaton Station, provided 15 of the required 30 MPDUs. The piggyback townhouse condominiums located in the second phase had high HOA fees, making the 10 MPDUs unaffordable. The developers paid \$574,000 instead of providing 10 for-sale MPDUs and 15 additional rental units in the apartment building.
15. Wisconsin Place, Friendship Heights: Seventeen efficiencies and one-bedroom MPDUs provided in project. High rise construction costs made it difficult to provide all of the MPDUs.
16. Grosvenor Village, North Bethesda: The Grosvenor Village subdivision had multiple phases. Twenty-four MPDUs were provided in the Meridian at Grosvenor Station and Avalon at Grosvenor Station apartment developments. The 2005 Alternative Agreement allowed payment in lieu of 18 rental MPDUs.
17. 8045 Newell Street, Silver Spring: Ten one-bedroom condominiums provided on-site. High condominium fees made the two-bedroom units unaffordable for MPDU certificate holders.
18. Rosedale Park, Bethesda: Seven efficiencies and four one-bedroom units provided on-site. High rise construction costs, height limits and street right-of-way made providing the MPDUs difficult.
19. The Adagio (Bethesda View), Bethesda: Condominium fees and unit construction costs resulted in MPDUs being unaffordable.
20. The Sterling, White Flint: Twelve one-bedroom units provided on-site. Payment for thirteen two-bedroom MPDUs based on 10% of the average sale price of the market units. The construction cost for high rise units and the high condominium fees for two-bedroom units made them unaffordable to MPDU eligible households.
21. Rock Spring Centre, North Bethesda: Two high rise buildings, one containing 351 units (Tower I) and the other containing 352 units (Tower II), with 32 on-site MPDUs provided in each building and 48 MPDUs subject to an Alternative Payment Agreement of \$33,000 per unit (or \$1,584,000).
22. Edgemoor at Arlington North. Land provided in lieu of providing for-sale MPDU with ten year controls. HOC constructed a 12-unit building providing permanent supportive housing for formerly homeless individuals.

Attachment C

23. The Quarry, Potomac: Four mid-rise, five-story residential buildings containing a total of 97 units. The condominium fees and sales prices for the MPDUs would exceed the affordability levels for certificate holders.
24. Park Potomac, Potomac: Six high-rise, residential buildings containing 450 units, all originally planned as condominiums. Sixty-one MPDUs were required, of which 30 units were provided on-site, and an alternative payment was made for the other 31 units because the construction cost of the units and the high condominium fees made them unaffordable to MPDU eligible households.
25. Woodside Courts, Silver Spring: This site was rezoned to permit 26 units in 2004 (no MPDUs were required at that time). The site plan was approved in 2006, after the MPDU law was changed in 2005 to reduce the number of units that triggered the MPDU requirement from 35 to 20 units or more. In approving the site plan, the Planning Board set the MPDU requirement at four units, but waived three of the four units. The applicant submitted a request to the ARC for an alternative payment for the 1 remaining unit, based on the environmental and historic constraints of the site and the fact the full density of the zone could not be achieved under the rezoning and site constraints. The ARC approved an alternative payment for one MPDU.
26. Burning Tree/Fox Hill, Bethesda: This Continuing Care Retirement Community was approved under a special exception requiring an affordable housing component. While not technically MPDUs, the 36 affordable units were to be available to persons earning 50% of the median income. The high service fees would have made the units unaffordable to persons at this income level. The County and the developer executed an Amended and Restated Settlement Agreement in lieu of litigation.
27. Hampden Lane, Bethesda: This high-rise condominium in downtown Bethesda received a density bonus and therefore was not eligible for an Alternative Payment. The combination of MPDU sales prices and condominium fees make the units unaffordable to MPDU eligible buyers. Under the terms of the Alternative Location Agreement, the developer paid HOC \$1,434,000. In return, HOC converted 12 rental market units in buildings in the Bethesda/Chevy Chase planning area to rental MPDUs with 30-year controls.
28. The Octave (1320 Fenwick), Silver Spring: This 102-unit high-rise condominium (a converted office building) in downtown Silver Spring was relatively affordable due to the small size of the units, but the condominium fees still made the MPDUs unaffordable to MPDU eligible buyers. The Alternative Payment was based on 3% of total sales revenue, consistent with DHCA's adopted policy. Payments were paid at the settlement of each unit in the building.
29. Courts at Clarksburg, Clarksburg: The units in this single-family detached age-restricted development were too expensive for MPDU eligible purchasers when combined with the HOA fee. In addition, prior experience has shown that there is very little demand for for-sale age-restricted MPDUs. The Alternative Payment was based on 3% of total sales revenue. Payments were paid at the settlement of each unit in the building.
30. Solera Reserve at Kensington, Kensington: The projected monthly fees for services, when added to the projected monthly rental payment for the MPDUs would not be affordable to persons eligible to participate in the MPDU program. This property would have been required to have 8 one-bedroom and 2 two-bedroom units. Instead, through an Alternative Location Agreement, this property provided funds to allow 7 one-bedroom units and 3 two-bedroom units to be built at another senior rental housing development just blocks away.
31. The Claiborne Condominiums, Bethesda: An Alternative Payment Agreement was signed in 2020 that will total an estimated \$1.6 million in payments in lieu of providing 13 MPDUs in this high-rise condominium with high condominium fees. The payment amount will be based on 3% of all sales at the property, as required by current County law. The condominium fee could not be unbundled and would make the cost of ownership of the MPDUs unaffordable to MPDU-qualified purchasers. The Agreement was renewed in 2022 due to resubmission of an identical site plan that had expired.
32. 4702 Chevy Chase Drive, Bethesda: An Alternative Payment Agreement was approved in 2021 that, if finalized and signed, will total an estimated \$2 million in payments in lieu of providing 9 MPDUs in this high-rise condominium with high condominium fees. The payment amount will be based on 3% of all sales at the property, as required by current County law. The condominium fee could not be unbundled and would make the cost of ownership of the MPDUs unaffordable to MPDU-qualified purchasers.

Attachment C

33. Parcel H: A contingent Alternative Location Agreement for the Parcel H building to allow for either the MPDUs that Parcel H will generate to be located in the Parcel H building or, if financing is obtained for redevelopment of the Wentworth building before Parcel H obtains Use and Occupancy permits, for the Parcel H MPDUs to be located in the Wentworth building.
34. The Quad: The Quad development includes a total of 4 residential buildings, 3 of which are already constructed and one, Parcel H building, is pending construction. The Quad is seeking Low Income Housing Tax Credits (LIHTC) to renovate the Wentworth (one of the 3 constructed buildings). If approved, DHCA has executed an alternative location agreement to allow all MPDUs from the 3 other buildings on the site to be located in the Wentworth building. If not approved, or if additional financing is not secured, all MPDUs will remain in the individual buildings.
35. The Pinnacle. The projected monthly fees for services of the independent living units, when added to the projected monthly rental payment for the MPDUs would not be affordable to persons eligible to participate in the MPDU program. This property would have been required to provide 14 MPDUs on-site. Instead, through an Alternative Location Agreement, this property provided funds to allow for 16 units to be built at a HOC site to be identified in Bethesda. A separate Memorandum of Understanding was entered into between the County and HOC to ensure that the interest earned on the funds be committed to providing a rental subsidy to HOC customers until the funds can be used in the new location. Priority will be given to family-sized rental units in Bethesda for the use of those rental subsidy funds.
36. Corso Chevy Chase. This project included both independent living and assisted living dwelling units. The projected monthly fees for services, when added to the projected monthly rental payment for the MPDUs would not be affordable to persons eligible to participate in the MPDU program. This property would have been required to provide 59 MPDUs on-site. Instead, through an Alternative Location Agreement, this property provided funds to allow for 68 units to be built at a HOC site to be identified in Bethesda. A separate Memorandum of Understanding was entered into between the County and HOC to ensure that the interest earned on the funds be committed to providing a rental subsidy to HOC customers until the funds can be used in the new location. Priority will be given to family-sized rental units in Bethesda for the use of those rental subsidy funds.
37. Heritage Potomac. This project included both rental units (“The Lodge”) and for-sale townhomes (“Cottages”). Regarding the rental units, The Lodge includes both independent living units and assisted living units designed as dwelling units. The projected monthly fees for services, when added to the projected monthly rental payment for the MPDUs, would not be affordable to persons eligible to participate in the MPDU program. This property would have been required to provide 9 MPDUs on-site. Instead, through an Alternative Location Agreement, this property provided funds to allow for 9 units to be built at a HOC site to be identified in Bethesda, of which at least 5 will be two-bedroom units. A separate Memorandum of Understanding was entered into between the County and HOC to ensure that the interest earned on the funds be committed to providing a rental subsidy to HOC customers until the funds can be used in the new location. Priority will be given to family-sized rental units in Bethesda for the use of those rental subsidy funds. Regarding the for-sale units, per 25A-5(l), age-restricted MPDUs offered for sale must be satisfied by a payment to the Housing Initiative Fund, which shall be 3% of the sale price of each market rate unit. DHCA will collect installments of that obligation with each settlement of the 44 Cottage units.
