NOTICE OF UPCOMING ROAD CLOSURE FOR RECONNECTION OF WATER MAIN

Dear Resident:

This is to inform you of an upcoming, short-term, closure of Newbridge Drive.

The short-term closure is necessary to complete the waterline work that was associated with the culvert replacement project completed in December 2014. In December 2014, it was decided to schedule the waterline work in weather more predictable and favorable for this type of underground utility work. The waterline work was a late activity in the culvert replacement schedule and originally scheduled to occur in December 2014. However, DOT, as well as residents, wanted assurances that Newbridge Drive would be open during the winter holidays and during the winter months. Therefore, this remaining work was re-scheduled for June 2015.

MCDOT and its contractor will commence work on June 3, 2015 under the watchful eye of the WSSC – Water Division. Newbridge Drive is expected to be closed no longer than four weeks as crews restore the initial configuration of the underground waterlines situated atop the new culvert. Although water service was restored and has been in service since completion of the culvert project, the redundancy designed in the original system was conceded to allow for the culvert replacement. This redundancy must now be restored to the benefit of the community. We anticipate this work to be completed and the road reopened by the 4th of July holiday. Detour signage will be posted similar to the previous closure.

To accommodate this work, the WSSC has a brief, planned, water service interruption as they reconnect the pipe. Thirty-seven homes along Newbridge Drive, Hunt Valley Court, Mayberry Court, and Twin Creek Court will be affected by this interruption. As in the past, the interruption will be planned to minimize inconvenience to those affected. For your information, a map of the affected properties is attached to this letter. Again, the interruption is planned, but an exact date is not yet known. The WSSC will be communicating with residents directly regarding the interruption of service.

The temporary interruption to water service will also be coordinated with the Montgomery County Fire and Rescue Service as a precautionary measure.

You may also contact Josh Faust, Public Outreach Manager, for the Division of Highway Services at josh.faust@montgomerycountymd.gov or 240-777-7642.

We thank you in advance for your cooperation and again we apologize for any inconvenience this temporary service interruption may cause.

Sincerely,

R. Keith Compton, Chief
Division of Highway Services
