**NOTICE OF DRAINAGE PROJECTS IN YOUR AREA
WILDCAT ROAD**

Al R. Roshdieh
Director

May 31, 2016

Dear Resident:

This letter is to inform you of a series of upcoming and major culvert replacement project planned in your area. The project is being managed by the Montgomery County Department of Transportation (MCDOT). There are four failing storm drains culverts that will be replaced by concrete pipe culverts. These culvert repairs will require the closure of a small section of Wildcat Road. Weather pending, project is expected to take **three (3)** months to complete.

As stated above, the existing storm drain culvert infrastructure has eroded and is in need of replacement. The infrastructure will be replaced with larger, stronger and reinforced concrete pipes which will provide greater channelization and durability. Traffic control devices and Variable Message Signs (VMS) will be in place during the construction to assist drivers. Again, the project will necessitate a road closure of sections of Wildcat Road and will utilize a marked detour along Brink Road and Davis Mill Road. Local traffic only will be permitted along Wildcat Road.

The culvert replacement project and road closure is scheduled to begin in early to mid-June 2016, weather pending. MCDOT will make every effort to expedite the work to facilitate an accelerated completion with the least amount of inconvenience to nearby residents. Should you have any questions or comments feel free to contact Mr. Josh Faust, Public Outreach Manager, at 240-777-7642.

We thank you in advance for your cooperation and again we apologize for any inconvenience this project may cause.

Sincerely,

Randy Paugh
Chief of Pavement Management
