

Lot 29 Meter Conversion

Short-term spaces to be added

What:

- During the week of **March 26, 2018**, Montgomery County's Division of Parking Management will convert 33 long-term spaces to 2-hour spaces in **Lot 29**. No ADA spaces will be impacted by the conversion.
- Customers looking for nearby long-term parking will find plentiful availability in Garage 60 directly across Wayne Avenue (see map).

Why:

- The metered spaces on Bonifant Street are being removed to accommodate construction of the Purple Line. To assist the nearby businesses with the loss of these spaces, the Division is converting a portion of Lot 29's long-term spaces into short-term one's.
