

## Drivers

- ✓ Stop for pedestrian at crosswalks and intersections -- it's the law.
  - ✓ Don't block crosswalks when stopping at intersections.
  - ✓ Slow down and obey the posted speed limit.
  - ✓ Take extra care around schools, playgrounds, and neighborhoods. Pedestrians are hit every 7 minutes each day.
  - ✓ Always look out for pedestrians, especially before turning at a green light or making a "right turn on red."
  - ✓ Obey speed limits, signs, signals and markings--and never run red lights.
  - ✓ Be careful when passing stopped vehicles. They might be stopping for pedestrians.
  - ✓ Allow 3 feet when passing bicyclists.
  - ✓ Share the road. It's your responsibility to look out for others.
- 

## Pedestrians

- ✓ Cross the street at marked crosswalks and intersections whenever possible.
  - ✓ Stop and look every time before crossing streets, even when you have the right-of-way, and especially at intersections with "right turn on red."
  - ✓ Before crossing, look left, right, then left again, and over your shoulder for turning vehicles.
  - ✓ Begin crossing the street on "Walk" signals-never on a solid or flashing "Don't Walk."
  - ✓ Use pedestrian pushbuttons to activate/extend the walk signal.
  - ✓ Use sidewalks. If none, walk facing traffic so you see vehicles, and drivers see you.
  - ✓ Make eye contact with drivers so they see you. Never assume they do.
  - ✓ Stay visible after dark and in bad weather with a reflector or retro-reflective clothing.
- 

## Cyclists

- ✓ Wear a properly fitted helmet. It can save your life.
- ✓ As a vehicle, you have the same rights and responsibilities as a motorist. Obey all traffic signals, signs and lane markings.
- ✓ Ride on the right side of the road with the flow of traffic-never against it.
- ✓ Pass slower moving or stopped vehicles on the left.
- ✓ Ride predictably and defensively. Use hand signals before turning.
- ✓ Stay visible, and use lights, reflectors and retro-reflective clothing when riding at night.
- ✓ Make eye contact with motorists and pedestrians before crossing paths with them.
- ✓ Always yield to pedestrians, even when turning, and especially at a "right turn on red" intersection.
- ✓ When cycling on sidewalks, always yield to pedestrians and give verbal warning when passing. Pass on left.
