### How to Read a Timetable

1. Find the day of the week and the direction you wish to ride.
2. Find the timepoints closest to your origin and destination. The timepoints are shown on the route as stop numbers and on the time and fare chart. They are also listed on the border of the map, which is scheduled to be at the particular location. Your service bus may stop at some of these timepoints.
3. Read down the columns to see the times when a trip will arrive at the given timepoint. Read the times across to the right to see when the trip will leave from the given timepoint. If a time is not shown, that trip does not serve that timepoint.
