**NOTES:**

- AM PM

**How to Read a Timetable**

1. Find the schedule for the day of the week and the direction you wish to ride.
2. Find the trip closest to your origin and destination. The trip times are shown on the route map and indicate the time you should be scheduled to be at the particular location. Your newest bus stop may be between timepoints.
3. Read down the column to see the times when a trip will be at the given timetable. Read the time correctly to the right to see if the trip reaches other timepoints. If no time is shown, that trip does not serve that timepoint.
