PAVING INSPECTIONS

After permit issuance, and 48 hours prior to starting construction, the permittee must contact the DPS ROW Inspector **listed on the permit** to schedule a pre-construction inspection.

Multiple inspections will take place including but not limited to:

- Placement of construction entrance
- Grubbing/removal of topsoil
- Borrow material (must be approved prior to placement)
- Stabilization
- Utility placement
- Concrete pipe and structure manufacture (pipe and structures must be supplied from an approved Montgomery County Department of Transportation manufacturer)
- Trench widths for installation
- Pipe/structure placement (including acceptable bedding)
- Backfill material
- Curb and gutter installation/placement
- Tops of storm drain structures for consistency with curb and gutter placement
- Fine grading prior to pavement placement
- Installation of proper base material
- Final paving

For the permit to be considered finalized and the bond returned, a final inspection must be made.

To schedule an inspection, contact the inspector listed on your permit. Should you not have your permit available, please click [here](#) to use the [Find My Inspector](#) program. Find My Inspector will require you to enter a physical address. If there is no physical address, but rather a location, please contact 311 at 240-777-0311.

To cancel an inspection, contact the inspector listed on your permit. Should you not have your permit available, please click [here](#) to use the [Find My Inspector](#) program. Find My Inspector will require you to enter a physical address. If there is no physical address, but rather a location, please contact 311 at 240-777-0311.
