WHOLE BUILDING AIR LEAKAGE TEST REPORT

BLOWER DOOR TEST REPORT

The building thermal envelope has been constructed to limit air leakage and tested in accordance with Sections R402.4.1 through R402.4.6 and Table 402.4.1.1 of the 2021 International Energy Conservation Code (IECC).

Building Permit Number: _____

Date of Testing: _____

Building Address: _____

Volume (ft³) of Area Within Thermal Envelope: _____ Measured CFM: _____

ACH50 - Air changes per hour at 50 Pascal

Q50 - Airflow at 50 Pascal (CFM)

Vb - Building volume (ft³)

Weather Conditions/Temperature: _____ Wind: _____

Results:

Q50 X 60 ÷ Vb = _____ ACH

PASS ☐ FAIL ☐

Company Performing Test: _____

Company Address: _____

Person Performing Test: _____ Signature: _____

Email: _____ Phone: _____

(Contact information must be for the individual performing test. Generic company information will not be accepted.)
