

[Advisory Opinion 1997-4]

February 11, 1997

[Name1 withheld]

Dear [Name1 withheld]:

Thank you for your memorandum of December 16, 1996 regarding your interest in contracting with Montgomery County Public Health Clinics to provide dentistry services. You have provided the Commission with the following information:

In October, 1996 you involuntarily retired from Montgomery County employment due to a Reduction-in-Force. You had served in a merit position of Dentist for nine years rendering dentistry services at public health clinics across the County. During that time, you did not have responsibility for monitoring contracts or awarding contracts associated with the Dental Program.

In consideration of these facts, the Commission determined that you do not require a waiver of Chapter 19A, and that you are free to contract with the County to provide general dentistry services. If you have any further questions, please do not hesitate to contact our office.

Sincerely,
[signed]
Barbara McNally
Executive Secretary
