Laurie opened the meeting and welcomed everyone at 9:30 a.m. After brief introductions, we started discussing priorities for FY 27.

In reviewing the priorities submitted for FY 26, the group supported resubmitting the FY requests but refining our submission for respite and submitting two additional requests, both of which have a budget impact: care coordination and support for end-of-life legislation. Elizabeth Boyd offered to explore what Respite for All might be able to add programmatically to the offerings at Arc of Montgomery. The "refined" respite request has subsequently been submitted to the commission's co-chairs for review.

The next meeting of the Health and Wellness Committee is scheduled for September 2, 2025.
