240-777-4815 (TTY)

State mandated program that investigates allegations of abuse, neglect, self neglect and/or exploitation of vulnerable adults age 18 and older. The program provides professional services to reduce risk factors and promote protection of the health, safety and welfare of endangered, vulnerable adults. A vulnerable adult is one who lacks the physical or mental capacity to provide for his/her daily needs. A staff person will make a risk assessment of the person's safety and health needs. There may be one to three visits to determine this and staff will need to speak to the person who is being assessed. The APS staff person may ask other family members to give the staff person and the client time alone and if the family is present, will ask questions of the family members in regard to the client. Recommendations will be made for prevention and protection of the vulnerable adult.
