Child Find - Montgomery County Public Schools

Mrs. Faith K. Fischel, Supervisor

English Manor School

4511 Bestor Drive, Room 146

Rockville, MD 20853

240-740-3130 (V)

301-947-6080 (24 Hour Intake)

E-mail: Faith_Fischel@mcpsmd.org

www.montgomeryschoolsmd.org/departments/special-education/programs-services/child-find.aspx

Child Find provides free developmental screenings for children from three years of age until kindergarten. It is also the single point of entry for families moving into Montgomery County whose preschool-aged child has been previously identified with a disability. Non-resident families with developmental concerns about their child who does NOT have an IEP and attends a preschool or child care center located in Montgomery County may contact Child Find. Parentally placed private school students' parents/guardians with school-aged students (5-21 years of age) may contact Mrs. Anna E. Szilagyi-Weichbrod at 240-740-3855 or via email at anna_e_szilagyi-weichbrod@mcpsmd.org for a Child Find referral packet. Parents of children between birth and two years, 10 months of age should contact Montgomery County Infants and Toddlers Program to request an evaluation if they have concerns about their child's development at 240-777-3997. Parents of students in kindergarten through age 21 should contact their neighborhood school to request an evaluation.

Dyslexia Tutoring Program

The Rotunda – Suite 310

711 W. 40th Street

Baltimore, MD 21211

410-889-5487 (V)

www.dtpnow.org

Teach low-income children and adults with dyslexia or a language-based learning disability to read. Screening assessments and tutoring services are free to anyone who meets income requirements.

Infants and Toddlers Program – Children, Youth & Family Services – Montgomery County Government

1401 Rockville Pike
Rockville, MD 20850
240-777-3997 (V) - Childbirth through 34 1/2 months
301-929-2222 (V) - Children older than 34 1/2 months
www.montgomerycountymd.gov/infantsandtoddlers
www.montgomeryschoolsmd.org/departments/special-education/programs-services/infants-and-toddlers.aspx

Local system of early intervention services for children birth through thirty four and a half months of age and their families. When an infant or toddler is suspected of having a developmental delay, a referral is made to the program. Children are eligible if they meet the following criteria: demonstrate a 25% delay in one of the developmental domains, have atypical development or have a high probability condition that would likely result in developmental delays. The program includes a developmental assessment; a review of family concerns; priorities and resources; meetings with the family to develop an individualized family service plan; service coordination to ensure that the individual and his or her family receive needed services which may include but are not limited to physical therapy, occupational therapy, audiology, assistive technology, health/medical services, nursing services, nutrition services, psychological services including specialized play groups or therapy sessions, counseling, speech and language assistance, special instructional services, transportation, and parenting skills development; and ongoing evaluation of the child's progress and his or her changing enrichment needs. These services are provided in a family centered practice model where families participate with service providers to learn skills and strategies to support their children's development. All services are provided at no cost in the child's natural environment (home and community settings where a child is during the day).

Jewish Social Service Agency

200 Wood Hill Road
Rockville, MD 20850
240-800-5772 (V)
www.jssa.org/services/mental-health/psychologicaltesting/

Psychological testing or an academic evaluation can help identify the source of learning and attention difficulties, suggest what type of school program can better serve your child, and determine whether there are other ways to improve your child's functioning and happiness. A blend of both testing options may be appropriate for your child depending on the specific questions you are seeking to answer. Depending on the type of evaluation needed, some fees may be covered by insurance.

Kennedy Krieger Institute

Center for Development and Learning
801 North Broadway
Baltimore, MD 21205
1-888-554-2080 (Toll Free)
www.kennedykrieger.org/patient-care/centers-and-programs/center-for-development-and-learning
Outpatient program for evaluation and treatment of children from preschool through adolescence for problems in autism spectrum, language development, learning and intellect, behavior or school adjustment. Common diagnoses made in the Center for Development and Learning include: anxiety; attention deficit hyperactivity disorder (ADHD); Autism spectrum disorders (ASD); disruptive behavioral disorders; intellectual disabilities; language delays; learning disorders; school adjustment or behavioral problems; and social difficulties. The center's primary goals include: diagnostic assessment; identification of secondary disorders; identification of cause of diagnosis when appropriate; treatment of medical needs, including medication management; and therapeutic recommendations for school and home. The Center's team works closely with other disciplines at Kennedy Krieger Institute, including speech and language pathologists, neuropsychologists, behavioral psychologists, child psychiatrists, neurogeneticists, genetic counselors, and social workers to ensure that each patient is comprehensively evaluated and received the most appropriate treatment.

Lab School of Washington

4759 Reservoir Road, NW
Washington, DC 20007
202-965-6600 (V)
www.labschool.org
