Infants and Toddlers Program – Children, Youth & Family Services – Montgomery County Government

240-777-3997 (V) - Childbirth through 34 1/2 months
301-929-2222 (V) - Children older than 34 1/2 months

www.montgomerycountymd.gov/infantsandtoddlers
www.montgomeryschoolsmd.org/departments/special-education/programs-services/infants-and-toddlers.aspx

Local system of early intervention services for children birth through thirty four and a half months of age and their families. When an infant or toddler is suspected of having a developmental delay, a referral is made to the program. Children are eligible if they meet the following criteria: demonstrate a 25% delay in one of the developmental domains, have atypical development or have a high probability condition that would likely result in developmental delays. The program includes a developmental assessment; a review of family concerns; priorities and resources; meetings with the family to develop an individualized family service plan; service coordination to ensure that the individual and his or her family receive needed services which may include but are not limited to physical therapy, occupational therapy, audiology, health/medical services, nursing services, nutrition services, psychological services including specialized play groups or therapy sessions, counseling, speech and language assistance, special instructional services, transportation, and parenting skills development; and ongoing evaluation of the child's progress and his or her changing enrichment needs. These services are provided in a family centered practice model where families participate with service providers to learn skills and strategies to support their children's development. All services are provided at no cost.

Jewish Social Service Agency – Center for Autism Through the Lifespan

200 Wood Hill Road
Rockville, MD 20850
301-816-2633 (V)

<https://www.jssa.org/get-help/children-and-adolescents/neuropsychological-testing/>

Comprehensive, individualized psychoeducational, psychological, and neuropsychological testing, detailed analysis of test results, personalized intervention strategies, and support in implementing recommendations. For children and adolescents ages 4 to 17 who are struggling with learning, social, emotional and academic issues. Testing services are currently only available to those clients already receiving JSSA services.

Kennedy Krieger Institute Center for Development and Learning

707 North Broadway
Baltimore, MD 21205
443-923-9400 (V)
1-888-554-2080 (Toll Free)

www.kennedykrieger.org/patient-care/patient-care-centers/development-and-learning-center

Outpatient program for evaluation and treatment of children from preschool through adolescence for problems in autism spectrum, language development, learning and intellect, behavior or school adjustment. Common diagnoses made in the Center for Development and Learning includes: anxiety; attention deficit hyperactivity disorder (ADHD); Autism spectrum disorders (ASD); disruptive behavioral disorders; intellectual disabilities; language delays; learning disorders; school adjustment or behavioral problems; and social difficulties. The center's primary goals include: diagnostic assessment; identification of secondary disorders; identification of cause of diagnosis when appropriate; treatment of medical needs, including medication management; and therapeutic recommendations for school and home. The Center's team works closely with other disciplines at Kennedy Krieger Institute, including speech and language pathologists, neuropsychologists, behavioral psychologists, child psychiatrists, neurogeneticists, genetic counselors, and social workers to ensure that each patient is comprehensively evaluated and received the most appropriate treatment.
