

Healthy Montgomery 2023 Goal Setting

An illustration featuring a brown hand holding a magnifying glass with a teal handle and a white lens. The magnifying glass is focused on a blue line graph that trends upwards. The background consists of a light gray grid with a large, faint white circle. A dashed gray line with square markers follows the path of the blue line graph. The word "Purpose" is written in a large, black, sans-serif font to the left of the magnifying glass.

Purpose

- Encourage collaboration across communities and sectors
- Empower individuals toward making informed health decisions
- Measure the impact of prevention activities

The background features a light gray grid. A thick blue line curves across the frame. A brown hand is shown holding a teal target with a white bullseye, positioned over the blue line. A dashed gray line with square markers follows the curve of the blue line, extending from the bottom left towards the top right. A large, faint white circle is also visible in the background.

Baseline and Goal Setting

- U.S. baseline: 2005-2008; HP 2020
- MD baseline: 2013 MD; MD SHIP 2017
- MoCo baseline: 2016-2017; HM 2023

Methods – HP 2020 Example

<i>Target-Setting Method</i>	Number of Objectives	% of Total	Targets Met	% of Targets Met
<i>10 percent improvement</i>	576	62.2%	210	36.5%
<i>Specific percentage point improvement</i>	26	2.8%	8	30.8%
<i>Maintain the baseline value</i>	13	1.4%	4	30.8%
<i>Minimal statistical significance</i>	50	5.4%	12	24.0%
<i>Projection/trend analysis</i>	78	8.4%	17	21.8%
<i>Consistency with national programs, regulations, policies, and laws</i>	80	8.6%	17	21.3%
<i>Retention of Healthy People 2010 target</i>	10	1.1%	2	20.0%
<i>Total coverage/elimination</i>	83	9.0%	5	6.0%
<i>Modeling</i>	10	1.1%	0	0.0%
<i>Total</i>	926	100%	275	29.7%

Methods – MD SHIP Example

Measure	2013	Proposed 2017 Goal	Target Setting Method (2013 data used as baseline for target calculations)
1. Reduce infant mortality	6.6	6.3	5% improvement to hit HP 2020 target
2. Reduce the percent of low birth weight births	8.5	8.0	6% improvement=1/2 of 2020 target
3. Reduce rate of sudden unexpected infant deaths (SUIDs)**	0.90	0.86	5% improvement to hit HP 2020 target
4. Reduce the teen birth rate (ages 15-19)	19.3	17.8	60% of previous improvement
5. Increase the % of pregnancies starting care in the 1st trimester	61.9	66.9	8% improvement
6. Increase the proportion of children who receive blood lead screenings	66.2	69.5	5% improvement
7. Increase the % entering kindergarten ready to learn***	83.0	85.5	3% improvement
8. Increase the %of students who graduate high school***	86.4	88.6	2.5% improvement (modest since we are above
9. Increase the % of adults who are physically active	48.0	50.4	5% improvement
10. Increase the % of adults who are at a healthy weight	35.9	36.6	2.5% improvement
11. Reduce the % of children who are considered obese (high school only)	11.0	10.7	2.5% improvement
12. Reduce the % of adults who are current smokers	16.3	15.5	5% improvement
13. Reduce the % of youths using any kind of tobacco product (high school only)	16.9	15.2	10% improvement

Methods

Criteria for goal setting

- Comparison with HP2020 and MD SHIP 2017
- Magnitude of differences
- Trends over time
- Feasibility of changes
- Ongoing and continuing surveillance and evaluation

Methods

- Did we reach the goals of HP2020 and MD SHIP?

Measure	Montgomery County 2016 Rate	HP2020 Goal	Did MoCo Achieve this goal?	MD SHIP 2017 Goal	Did MoCo Achieve this goal?
Suicide Mortality	6.2 per 100,000 population	10.2 per 100,000 population	Yes 	9.0 per 100,000 population	Yes

Plan of Action

1. Set County-specific goals and measurable objectives to guide evidence-based policies, programs and other actions to improve health and well-being.
2. Provide data that is accurate, timely, accessible, and can drive targeted actions to address regions and populations with poor health or at high risk for poor health in the future.
3. Foster impact through public and private efforts to improve health and well-being for people of all ages and the communities in which they live.
4. Provide tools for the public, programs, policy makers and others to evaluate progress toward improving health and well-being.
5. Share and support the implementation of evidence-based programs and policies that are replicable, scalable and sustainable.
6. Report annually on progress through 2023.
7. Stimulate research and innovation toward meeting HM 2023 goals and highlight critical research, data, and evaluation needs.
8. Facilitate development and availability of affordable means of health promotion, disease prevention, and treatment
