

## Brand-Name Medications Requiring Use of Generic(s) First

You can save money by using safe, effective generic medications when possible. According to your prescription benefit plan, you will have to try one or two generic medication(s) first\* before certain brand-name medications will be covered. The chart below shows you which drugs require the use of generics first. This chart only provides a sample list of generic drug options and may not include all drugs available.

Drug Class	Drugs Requiring Step Therapy: Before you can try one of these brand-name drugs	Covered Generic Options: You may have to try one or two* of these generic medications first **
